

CHANCELLOR TO CONFER DEGREES ON RECORD CLASS; MCGILL SOON TO LAUNCH FUND RAISING CAMPAIGN

Operating Costs Rise, Influx Of Veterans, Need for New Buildings Reason for Drive

New Staff Also Needed; Goal Said Around \$20,000,000

Mr. Ross Clarkson, vice-president and general manager of the Royal Trust Company, has been appointed chairman of the special committee to organize the forthcoming campaign for funds which the university has decided to launch partly because of "tremendous deficits" incurred in educating veterans during the past two years.

\$20,000,000 NEEDED

Although the exact amount of the objective of the drive has not been set yet, a survey conducted five years ago showed that the most urgent needs of the university for buildings and endowment would approximate twenty million dollars.

A special campaign carried on at that time raised a quarter of that amount, but it was stated after the Board of Governors meeting at which the proposed campaign was made public that "the passage of time has made it necessary to go one step further and appeal to the many friends of McGill University for a measure of financial assist-

CHIEF JUSTICE O. S. TYNDALE

Post-war Increases

Referring to increased administrative costs in a speech he made before members of the Rotary Club last month, Principal James compared an expenditure of \$4,177,000 last year to that of \$1,792,000 in 1937. He also pointed out that such items as salaries and wages, heating, printing and stationery, etc., had doubled, tripled and even quadrupled in some cases since the pre-war era.

During the same period, endowments fell from \$871,000 to \$764,000. "This decline of endowment income is due partly . . . to the decline in interest rates and the refunding of bonds which has occurred so frequently during the past decade," he added.

since that will make it possible for the university to maintain its high standards of teaching and research."

BULGING AT THE SEAMS

Plans for the campaign as now proposed have been discussed for some time past, the Governors stated, but the actual opening of the drive was delayed so as not to interfere with similar campaigns for funds recently held by l'Université de Montreal and Bishop's College.

The official release stated that "the urgency of the present financial situation is accentuated by the fact that the university has incurred tremendous deficits during the past two years through its efforts to provide the best possible (Continued on Page 11)

DR. F. CYRIL JAMES

ROSS CLARKSON

McGill Position Critical; Needs Aid—Dr. James

The quality of our civilization is dependent upon the contribution that universities are able to make, said Principal Cyril F. James last night in a speech delivered at the Ritz Carlton Hotel before the ninth annual meeting of the McGill Associates.

More Than Training

Training, he warned, is not education. "The universities of Germany, even under the Nazis, did a good job of training." It is easy to train men, he said, but education requires more. "The universities of those nations that carry out no more than the tasks of research," he warned, "are symptoms of the anaemia that threatens our western civilization."

The task of universities today, thus more considerable and arduous now than ever before, cannot be successfully performed, he pointed out, unless substantial assistance is given them. In order that "the lamps that are still burning brightly in Canada" may be allowed to go on burning, McGill must be able to overcome acute financial problems resulting from increases in operational costs and the need for new buildings to accommodate its students.

Rising Costs Serious

"The plain fact of the matter is that our Canadian Universities cannot maintain their present standards in the face of steadily rising costs unless they receive a great deal more money than is now available to them," Principal James pointed out, adding: "I do not hesitate . . . to say that the position of McGill . . . is perhaps the most critical."

This he showed by citing statistics demonstrating that under present conditions, and if the trend apparent so far keeps on heading toward tripled and quadrupled expenses — and there is every reason to believe that it will — McGill will not be able to carry forward to completion the many splendid endeavors which it has undertaken and which have made her famous.

More Scholarships Needed

Stressing the urgent need for additional scholarships, Dr. James showed that very few individuals can afford to make contributions of such a nature as to be more than a drop in the bucket, and urged the provincial and federal governments to devote more (Continued on Page 11)

A MESSAGE FROM THE PRINCIPAL

To every member of the graduating class, I offer my warmest personal congratulations. You have accomplished the task that you set yourselves several years ago. Many of you, I know, looked forward to this occasion during the dark days of the recent war when you were striving wholeheartedly to win for all young Canadians the chance to study, within the walls of a free University, the traditions of our civilization and the profession that would enable you to uphold it during the years of peace.

You have made a profound impact on McGill. These have been exciting years, in which students and members of the teaching staff have worked together to solve the problems that were created by expanding enrolment. Those who were privileged to be your teachers have enjoyed working with you, and I can assure you that incidents and personalities out of your period at McGill will provide the fabric of many a winter's tale by the fireside of the years to come.

Dare I express the hope that McGill has made an equally profound impression on each of you? It is part of the function of a university to train men and women so that they may become lawyers and doctors, nurses and librarians, accountants and engineers, civil servants and business executives. But that professional training is no more than a part of what McGill has offered you. Training is not education. Education implies that you have been encouraged to think for yourselves, that your inherent abilities have been drawn out so that you can use them effectively, that you have learned to stand on your own feet and know the difference between right and wrong. I hope that McGill has helped you to become educated in that deepest sense of the word.

As you go out from these halls, my best wishes, and those of all my colleagues, go with you. God speed for your journey down the years.

Dr. F. Cyril James
Principal and Vice-Chancellor.

Big French Summer School Starts Soon

Although the qualitative and numerical records of the university's French Summer School were broken last year and the preceding, this year will mark still another record, it was announced recently.

Both Douglas Hall and Royal Victoria College will be used to house the thousands of students expected to come from various parts of the continent and the Caribbean area; Douglas Hall will be used to accommodate advanced students, among whom many are Canadian and American university professors, while R.V.C. will be the residence of less advanced students. This, it was explained by Professor Jean E. L. Launay, head of the French Department and director of the summer school, will permit a strict adherence to the "no English spoken" rule.

NEW FEATURES ADDED

Another feature of the progressively improving school, which is recognized as among the three top ones in America, is the fact that two distinguished visiting professors will teach to advanced students throughout the course, a six-week session lasting from June 29 to August 11.

They are writer, critic and professor Abbe Arthur Maheux of Laval University, Quebec City, and Prof. Auguste Angles, visiting professor at Wellesley College and

Baccalaureate Service To Be Held Sunday

Dr. F. Cyril James, principal and vice-chancellor of the university, will deliver the address at the baccalaureate service which will be held in Moyses Hall next Sunday. Some 1,500 students in all graduating classes are expected to attend the event, which will mark the opening of the final round of campus activities for the year 1947-48.

The four-day program was outlined by Frank Common, jr., final year law student and chairman of the convocation week's activities, and will have its grand finale in the form of the all-classes graduates' ball to be held on the evening of Convocation Day, Wednesday, May 26.

Other events will be the Monday, May 24 composite banquet for students of the various faculties, at 7.30 p.m. in the Queen's Hotel. Tuesday's events will include tennis matches and other sports, as well as class dinners in the evening and an outing at Belmont Park. Wednesday's Convocation ceremony will be followed by tree-planting and the principal's garden party in the afternoon.

PROF. J. E. L. LAUNAY
formerly of the Université de Lyon, France.

Other additions include that of an especially appointed professor to lead groups in the singing of French and French-Canadian folk songs, and a phonetics laboratory to help smoothen out accentuated French conversation and develop pure spoken French.

Prof. Launay, assisted by Mme. L. Touren-Furness, will direct the course, for which approximately 20 professors have been selected.

Lord Rowallan Will Make Main Convocation Speech McGill Honors 'Finnie'

The largest graduating class in McGill's history, consisting of over 1,500 students, including hundreds of veterans, will receive degrees at Convocation, which will begin at 10 a.m. Wednesday, May 26, on the West Campus, or in the event of inclement weather, at the Montreal Forum.

This year there will be four guests of honor who are to receive honorary degrees and two of the men to be honored.

Oliver Hall, B.Eng., (Min.); M.Sc. and G. H. "Finnie" Fletcher, B.A., are graduates of McGill. The other distinguished guests will be Lord Rowallan, M.C., T.D., D.L., chief scout of the British Commonwealth and William E. Gallie, M.D., C.M., President of the American Surgical Association.

The Convocation address will be made by Lord Rowallan and Chief Justice Orville S. Tyndale, M.A., B.C.L., K.C., Chancellor of McGill University, will present the degrees.

ROWALLAN CHIEF SCOUT
Lord Rowallan, Thomas Godfrey Polson Corbett, is the second Baron to hold this title which was created in 1911. Born in 1895 he succeeded his father to the title in 1933. Educated at Eton he served in World War I from 1914-1918 where he was wounded and was awarded the Military Cross and in World War II he served in France, commanding a battalion of Royal Scots Fusiliers in 1940. He retired from active service in 1944 and was made Chief Scout of the British Commonwealth and Empire in 1945. Before the Convocation address Lord Rowallan will be presented with an honorary L.L.D.

Following the convocation exercises, which this year feature a slight change in the processional arrangements due to the record number of students graduating this year, the graduating class will perform the traditional ceremony of planting memorial trees on the campus.

Alternative Arrangements
In view of the unusually large graduating class, the university authorities have decided to use the West Campus for the Convocation exercises, provided the weather remains fine, and have made arrangements to use the Montreal Forum if rain threatens, thus assuring accommodation for all relatives and friends. The final decision as to which location will be used will be broadcast over all the local radio stations at 8, 8.30 and 9 a.m., on the morning of convocation.

The annual garden party for the graduating students and their parents, given by Dr. and Mrs. James will be held from 4 to 6 p.m. on the campus or in the Currie Gym in the case of rain. Tickets have been mailed to all the graduating students and each ticket will admit the student with his or her parents. The tickets must be presented at Roddick gates as the campus will be closed and admittance will be restricted this year due to the large number of students in the graduating class and all students are urged to arrive as soon after 4 p.m. as possible.

INSTRUCTIONS to GRADUATES

Directions for graduating students who are taking part in the Convocation exercises on Wednesday, May 26th, have just been issued by Dr. W. Bruce Ross, Assistant Dean.

This year the graduating students have been asked to pick up their caps and gowns today, tomorrow, Saturday morning, and Tuesday, at which times the Registrar's Office will be open to distribute the garments.

If the weather is fine, Convocation will take place on the West Campus. In view of the changed procedure in picking up caps and gowns before Convocation day, students will be responsible for bringing these with them on the day of the ceremony.

Students will gather at the Arts Building steps at 9.15 a.m. and from there stewards will direct them as to lining up, etc. In view of the record number of graduating students there will be three separate processions to minimize the time of filing in.

In the event of rain the exercises will be held in the Montreal Forum. The final decision as to the place where Convocation will be held is to be broadcast over all local radio stations at 8, 8.30 and 9 a.m. on the morning of Convocation. Students will gather at 9.15 at the St. Luke Street door, on the Atwater Avenue side of the Forum and detailed instructions will be available at the time they pick up their caps and gowns as to where they will line up in the Forum. Two gathering places have been arranged, the smoking room and the downstairs assembly room, and ample provision will be made for wet weather clothing.

Dr. Ross emphasized the fact that students should not linger around the door but proceed to an assembly room. Be on time, make sure you know where the assembly points are and if you are not sure do not hesitate to enquire directions from the stewards who will be present.

Chancellor Will Head Delegation to the UK

The four representatives from McGill to the first post-war conference of the Universities of the British Empire as approved by the Board of Governors will be the Chancellor, Chief Justice Orville S. Tyndale of the Superior Court; Principal and Vice-Chancellor Dr. Cyril F. James; Dean D. L. Thomson of the Faculty of Graduate Studies and Research, and Dr. H. Neal Fieldhouse, chairman of the History Department.

The conference will be held at Oxford, England, from July 19 to 23. The release of this news coincided with the visit to the University of Dr. D. Hughes Parry, vice-chancellor and chairman of the Committee of Vice-Chancellors of the University of London (England), who was touring Canada both to establish contact with delegates to the Oxford conference and to estimate the response to a School of International Law soon to be founded in England.

CONVOCATION PARKING

The University announces a correction in the advertisement appearing on page 10 of this issue concerning traffic on the Campus on Convocation Day.

On Convocation Day, the Roddick Gates will be closed. Guests arriving by car should enter the Campus on foot by the Roddick Gates or by the Milton or McTavish Street entrances. Limited parking space will be available east of the Engineering Building and north of the Biological Building, but not elsewhere on the Campus.

TIME-TABLE of ACTIVITIES

SUNDAY, MAY 23:		
11:00 a.m.	—	Baccalaureate Service, Moyses Hall.
4:00 p.m.	—	At Home, Royal Victoria College. For all women graduates and their parents.
MONDAY, MAY 24:		
7:00 p.m.	—	Graduation Banquet. Faculties of Arts and Science, Commerce and Engineering, Queen's Hotel.
7:00 p.m.	—	Class dinners. Class presidents in charge of arrangements.
TUESDAY, MAY 25:		
2:00 p.m.	—	Tennis: McTavish Courts. Golf: Montreal Municipal Golf Club.
3:00-5:00 p.m.	—	Swimming: Canadian Legion Pool.
7:00 p.m.	—	Class dinners. Class presidents in charge of arrangements.
8:15 p.m.	—	McGill Night at Belmont Park. Special tickets and busses are to be available.
WEDNESDAY, MAY 26:		
10:15 a.m.	—	Convocation Ceremony. Campus if fine, Forum if wet.
1:00 p.m.	—	Tree Planting, Lower Campus.
4:00 p.m.	—	The Principal's Garden Party. Campus if fine, Gym if wet.
10:00 p.m.	—	Convocation Ball, Currie Memorial Gymnasium.

AU REVOIR FINNIE!

Of all the degrees, both honorary and otherwise, which will be handed out today, there is one in particular which will attract the attention and interest of students and graduates alike. For as a fitting climax to 26 years of service to students, McGill University has seen fit to honour G. H. "Finnie" Fletcher by awarding him a well-deserved honorary degree of Master of Arts.

"Finnie", who received his B.A. at McGill in 1911, and who for over 25 years has been Secretary-Treasurer of the Students' Executive Council and Advertising Manager of The McGill Daily, is retiring this year. His term of office officially expires June 30.

The man who has provided administrative and financial continuity both to Student Government and The McGill Daily for over a quarter century will indeed be hard to replace. But it was only at his own request, and after an expression of "profound regret," that the Students' Executive Council was forced to accept his resignation. For many years there had been a reluctance to recognize the fact that McGill students would one day lose "Finnie". This term, however, the reluctance had to be overcome, and it was the retiring Council's distasteful duty to approve his resignation.

For in student affairs, "Finnie" had become an institution. On the Executive Council, he has recorded the minutes and motions of generations of Council executives. His brain was a storehouse of motions and resolutions. Members of

the Council were often amazed to hear "Finnie" commenting upon some proposed motion, recall that "in 1926, the Council of that year passed a similar motion". Consultation of the appropriate minutes would confirm "Finnie's" memory.

To the executives of the various campus clubs and groups "Finnie" was likewise indispensable. Every year, new executives, fresh at their tasks, would look to him for some measure of administrative and financial direction — for the initial stimulus to get their activities under way. His role in this respect has always been appreciated, even by those who lacked the overall perspective of student financial problems.

And of all other numerous contributions which "Finnie" has made to student life, we might just mention the debt owing to him by The McGill Daily. The present volume of advertising, which permits The Daily to often come out on the "credit" side of the ledger, is due largely to his fieldwork.

"Finnie" will be missed. But if the first office on the left as you enter the Union will miss his presence, we feel sure that "Finnie" himself, for some time to come, will long to gaze out over the campus from his office window: a panorama which he has learned to know well.

We extend our heartfelt congratulations to "Finnie" as he receives his honorary degree from the hands of the Chancellor next Wednesday. And one and all, we wish him "good-luck" in his coming years of retirement. — A. T.

A GENTLE REMINDER

Custom dictates that every year at this time, The McGill Daily editorializes a fond farewell to the graduating classes of the university, at the same time extending fervent hopes for the students' continued successes. This year, at the expense of "being different," we choose to send a reminder and a welcome; a reminder to the graduates, and a welcome to the new classes which will replace those graduating.

To those who are leaving, then, a gentle reminder: always remember some of the things you have learned. It is inevitable that the graduates will forget some of the more routine and boring subjects which they have been taught, but there are certain subjects and philosophies which they must remember if they are to fulfill their contributions to Canada and the world. And in these unsettled and transitory times, it is even more important that they be remembered.

We refer, of course, to the lessons in tolerance and prejudice, to which students have been subjected, either in their studies or in their extra-curricular activities. The sciences and the philosophies which are taught at the university find their factual and scientific basis upon the premises of the universality of human nature; on the supposition that Man is of one race — regardless of colour or creed. The extra-

curricular activities make some attempt to provide living examples of these lessons. At the expense of resorting to outright "preaching" we make a wish that these lessons may never be forgotten.

There is but one word of welcome to the new students who enter the university next fall. Whatever studies you pursue, keep a broad, open and critical mind; take nothing for granted; believe nothing that you cannot understand; accept only those things which are necessary in order to achieve understanding. Again, we fear that we have resorted to preaching, but there does not appear to be any other method of expressing those things which we have found vital in the pursuit of a complete and full education.

One last word: a reasonable balance between study and extra-curricular activities will be found to contribute a great deal to the individual student. The variety of activities which the university affords can provide a wider, more complete education.

This, then, is our farewell to the graduates. Our wish for their continued success and welfare is understood. And this, too, is our welcome to the new students, with the hope that their stay at McGill will be profitable and advantageous — in more ways than one. — T. E. B.

LEADERS IN PEACE

Recently universities have too often sought to honour military and political leaders, perhaps because their calling has put them in the limelight. One should remember that such men fill but two functions in our society — important functions, but concerned at this time more with security, leaving the training for citizenship to others.

Particularly excellent examples of "others" are Lord Rowallan, Oliver Hall, William Edward Gallie and "Finnie" Fletcher. These men, a Youth leader, a surgeon, a mining executive and a student counsellor, have achieved greatness in their chosen work and are examples of the type of leadership urgently needed in the world today.

At the end of the recent world war, the hopes

of all men for enduring peace reached a high level. But today, just three years later, we see armed conflict again ravaging two sectors of the earth, and a too significant "cold war" being waged between the two strongest countries of the East and West.

Our governments are accepting the responsibility for preparing to meet the challenge of war, should it be issued. Men such as those McGill honours at this convocation are accepting today—as they always have—the responsibility for training the citizens and particularly the youth of our land for peace.

It is then particularly significant that the university recognize the talents and achievements of these men, for their work has been directed to filling a function of critical importance in the world today. — F. C.

Two Reviews

"Electra", Nicholas Nickleby

The film version of Eugene O'Neill's "Mourning Becomes Electra," starred Michael Redgrave as Orin, Katina Paxinou as Mrs. Manning, Raymond Massey as her husband, and Rosalind Russell as daughter Lavinia.

Other reviewers have found fault with the minor characters, especially with Nancy Coleman as Orin's sweetheart. However, they seemed nearly perfect, with the exception of Kurt Douglas as Lavinia's ultimately rejected suitor, Peter Niles. While Rosalind Russell received rave notices, it was Michael Redgrave who gave the movie's inspired performance, notable for tenderness, subtlety, and abrupt psychological shifts. It was like watching a dramatization of the workings of a naked mind.

As in Mr. Redgrave's portrayal of MacBeth earlier this year, it was not the words he spoke, but the way he looked and acted that was most important. That is why he was so unsatisfactory in MacBeth; MacBeth without his language is just a common adventurer, and Mr. Redgrave sacrificed Shakespeare's wonderful poetry for dramatic pace and action. If Shakespeare is to be acted for everyone, as in his own time, and not only for the aesthetes, as much emphasis must be placed on the dramatic quality as on art production; but to play it for drama only, to rush or slight those wonderful words, themselves so powerful...

Eugene O'Neill must have been pleased with Redgrave's performance in "Electra." He was mad, crafty, tender with his sweetheart, fearful and humorous over his father's bier, bitter, hopeful, piteous, desperate, resigned, by turns. Under and over all ran his Oedipus tendency, his jealousy of his mother's lover, his unhealthy dependence on sister Lavinia after his mother's suicide. He was like Hamlet in his volatility. Just before he killed himself, he forgave his dead mother for having loved Adam Brandt, and in his suffering he attained greatness—because he understood, at the last moment, what was nearly beyond his crippled ability to conceive.

All this Redgrave achieved. But Miss Russell could not measure up to him. Delicately shifting psychological reactions were apparently beyond her. She was inadequate, not perhaps, because of a faulty conception of Lavinia's mental illness, but because she failed to achieve subtlety—and so seemed rather eagerly blundering and stiff. Not lack of imagination—lack of histrionic ability.

There is not much "post-operative" discussion after a film like "Mourning Becomes Electra." A great tragedy ought to have an exhausting effect on the audience. The characters should be overwhelming, so that the members of the audience don't identify themselves with them. Lewis Mumford has written that "only commonplace works of art reflect the everyday personality of the reader." Everyone recognizes Hamlet's indecision, but it is great tragedy partly because the resolution of Hamlet's problem is out of the province of our everyday affairs. One can identify oneself completely, for instance, with Walter Mitty, but not with Oedipus, or Napoleon, or Orin.

In an ordinary play, there may be different solutions. The plot might have resolved itself one way or another, and one likes to discuss this unfinished business after the theatre. But a great tragedy is authoritative—there could not have been any other solution. The resolution must have been completely inevitable and unaltering. After a certain point in the play, the audience must have been assured that there could have been no other way out. There ought to be nothing for the reader, or audience to do. A great tragedy is a complete view, a total organization of material. "Paradise Lost, for instance, gives you everything. You could not add anything of your own to Milton's pattern.

Modern writers, on the other hand, are reputed to write in terms of the theory that the author ought to be ambiguous enough to stir the reader's imagination, and make him complete his own version of the play, story, or poem. The reader gets part of his pleasure out of doing his own work. But in "Mourning Becomes Electra," O'Neill completes every emotional, psychological, and moral detail of his pattern. The resolution of the play has finality; further exploration is impossible.

—D. V.

MRT to Present 'I Remember Mama' at Moyses Hall

"I Remember Mama," adapted for the stage by John Van Druten, will be staged at Moyses Hall under the direction of Herbert Whittaker, opening on Tuesday evening, May 25th. Tickets may be reserved at MRT's Guy Street Playhouse.

Comparisons are odious, but as Nicholas Nickleby represents the second in the Dickens trilogy emanating from the British Film studios, it is almost inevitable that we should recall Great Expectations when we review the newer film.

In all fairness it should be noted that Nicholas Nickleby is almost twice the length of the other novel, and so the adaptation presented greater difficulty. Further, any cohesion that the film might have possessed when released was destroyed by the wanton cutting that preceded its showing at the Avenue Theatre. Cyril Fletcher and Fay Compton (both given star-billing by the theatre) never appeared as the delightfully amusing Mantalins, and we are left to conjecture what other scenes were mutilated.

But even with due consideration to the above the film did not approach the artistic perfection of Great Expectations, nor was it nearly as entertaining. The adaptation was an unfortunate infringement of the text, which resulted in several particularly inane scenes, the one most readily recalled being the appearance of Madeline in her wedding-dress before Nicholas in the bare room of the Rules. Cavalcanti perceived rightly that the characters should be played with that degree of exaggeration with which Dickens endowed them, for they being larger than life, naturalism was a cloak that they could ill afford to wear. And the caricatures were well-done; Alfred Drayton's Queers was appropriately loathsome, Stanley Holloway's Vincent Crummles was superbly histrionic, Sir Cedric Hardwicke's Ralph was the wicked uncle to end all wicked uncles, Derek Bond's Nicholas was so very correct, and Bernard Miles nearly outshone them all with his brilliantly varied performance of Newman Noggs.

What was the total result? A series of character studies and scenes, sad or comical, the summation of which could never be called a completely satisfying whole. It was as if Cavalcanti lost sight of

the picture he was painting and created instead a cartoon strip.

Throughout the whole film I was beset by longings; for the directional skill and sensitivity of David Lean, for more of Athene Seyler's delightful La Creevy, for one appearance, however brief, of the Kenwigs and the Lillyvicks, via whom my Dickens-admiring father introduced me to the delights that his favorite could provide, and for sight of the aforementioned Mantalins. The choice of heroines was unfortunate. Had the length and breadth of Great Britain been searched it would have been difficult to have found anyone less suited, physically, to the part of Madeline. I am afraid she could only be called plain. Nicholas may have loved her for her virtue, but love at first sight became unbelievable. Although Sally Ann Howes was altogether to be preferred as the more spirited Kate, her eyes had a false brightness that verged on glassiness.

It is with mingled feelings of apprehension and pleasure that I now await Oliver Twist. I have high anticipation that the film will repeat the success of Great Expectations. I fear that I shall not be allowed to see it intact in this city. I am not a lone voice crying in the wilderness; there is a veritable chorus of those who object to the cutting by the distributors. These Delilahs are brethren of those Philistines who present the classics of literature in digest form, excise two movements of Beethoven's Ninth Symphony, and publish the ten best sayings of Socrates. It is not merely a matter of time, for the programme at the Avenue, which included two shorts and a newsreel, and a cartoon lasted no longer than two and one half hours.

It is the deliberate mutilation of a work of art, just as surely as the tampering with classic writings, a symphony, or a painting is a mutilation of a work of art. It is done because the public, supposedly, will not suffer a long film. It means, inevitably, a lowering in

Rostock Sequel

Below is the letter of reply thanking the students of McGill for their magnanimous gesture in sending Miss Ilse Schroder of Rostock, Germany, one parcel of used clothing (male). In the letter below Miss Schroder apologizes for not having thanked for the parcel any sooner, since she was laid up with the Flu. Luckily she has a brother to whom she has been able to pass on the used clothing (male). "We think it darn white of the students to have sent the parcel and wish to congratulate them," said an official of the I.S.S. when asked for a comment and added, "but you'd better warn them not to overdo it."

14 Niklotstrasse,
Rostock,
April 11, 1948.

Dear Sir:

I was very pleased to receive your letter from February 20th and your college newspaper, it arrived safely on the 17th of March. I was not able to write sooner to you because I got an attack of influenza, but I'm fit now.

I was very much interested and surprised to read my own letter in your McGill Daily. At first I couldn't believe it till I saw the words "Rostock Letter" printed in the paper. It was very nice of you to insert my letter in your paper and I do appreciate it. Very many thanks for your troubles. I have

read your newspaper and find it very interesting.

One week ago I got a parcel from one student of the Dawson College. I was very glad about it. It contained mostly male garments, but I have a brother, he has grown out of all.

I am very grateful for all this useful things.

With hearty thanks, and best wishes, I remain,

Yours Truly,
ILSE SCHRODER.

Queen's Convocation Sees 663 Awards

(By Canadian University Press)

The largest graduating class in the 107-year history of Queen's University received degrees in the two-part convocation ceremony which took place there last Saturday. In all, 663 degrees and six honorary degrees were awarded.

The afternoon convocation saw the giving of degrees to 400 Arts students, three theology students and 10 graduates of Queen's new School of nursing. The honorary degrees went to four Canadians, a Briton and an American.

These were: Rev. A. P. Menzies, Ottawa; G. W. Mason, K.C., Toronto; L. W. Brockington, K.C., Ottawa, Queen's new rector; Rev. G. A. Edminson, South Orange, N.J., and Sir W. Fletcher Shaw, Birmingham, British obstetrician and gynaecologist.

The only honorary degree to be awarded in the morning ceremony was H. G. Bertram, Dundas, Ont., prominent machine-tool manufacturer. At the same ceremony, 243 students of applied science also received their degrees.

Rockefeller Institute Among Benefactors

Among the gifts, grants and bequests awarded to the university in April was one of \$15,000 for five fellowships in biochemical research from Canada Packers Limited.

This will enable five qualifying students to obtain Ph.D. degrees under the direction of Dr. J. H. Quastel.

Other grants included \$7,500 from the Rockefeller Institute for the Department of Psychiatry; \$1,500 from Imperial Oil Limited for scholarships, and \$4,200 from the Carnegie Corporation for community educational programs.

"Please, dear, don't do that. Stop. Didn't you hear me? Stop, stop, stop—stop I said. Stop."

"Whaddya think you're doing, sending a telegram?"

Music this Week

by J. Kohos

In this, the last column of the year, an attempt will be made, after the fashion of the metropolitan papers' critics, to evaluate the musical season—'47-'48. The Daily has been fortunate in not being related to, or in any way connected with any societies, associations, or impresarios, and, therefore, was in no way obligated to give favourable reviews when these were not warranted.

On the whole the worst series presented to the Montreal public this year was the set of twelve concerts at the Plateau Auditorium by the orchestra of Les Concerts Symphoniques de Montreal. It has been bandied around in musical circles that the principal reason for the poor quality of the concerts was the fact that the permanent conductor of the orchestra did not have the respect of the musician members.

The performances were generally so bad that the only concerts that stand out in the listeners' memory are those led by the guest conductors, those in which outstanding soloists participated, and those that were so bad they can't be forgotten.

In the first class we have that inspired performance of the orchestra under Georges Enesco. The string section showed that they could produce beautiful sounds if they tried hard enough. In the second category we have the concerts in which Tossy Spivakovsky, Jacques Thibaud, and Rudolf Serkin were heard. As for the last group we need only mention the performance of Beethoven's Ninth Symphony at that unforgettable first concert of the season.

The task of choosing a permanent conductor for the Montreal orchestra has not been an easy one. The directors of the orchestra have felt obligated to the present conductor for the help he gave them when he first came to this continent. At that time the orchestra was passing through one of its more difficult stages of development and his coming forward at the time helped put the orchestra on its feet. For this alone the directors will forever be in debt to the present conductor.

When the time came to choose a permanent conductor, several names beside his were thought of. Among these a conductor in the French Section of the Metropolitan Opera and the conductor of one of the smaller orchestras in the southern states were mentioned in some musical circles. But it is reported that for various reasons these men were unacceptable.

It is amazing that at this very time Montreal could have had for the asking the man who has since been chosen to succeed Serge Koussevitzky as leader of the Boston Symphony orchestra. When M. Munch was here for the first time, we chanced to meet him after a rehearsal and we asked him what he thought of being the orchestra's permanent conductor. To our surprise he replied, "If they ask me I would be glad to come."

At that time Montreal could probably have contracted his services for several years. However the opportunity was lost. While the Gods debated in Montreal and then chose our present conductor, Boston acted! Now M. Munch is to lead one of the world's foremost orchestras.

This man could have built up a fine orchestra in Montreal. As it is we will have to be satisfied with something about as good as the Toronto orchestra.

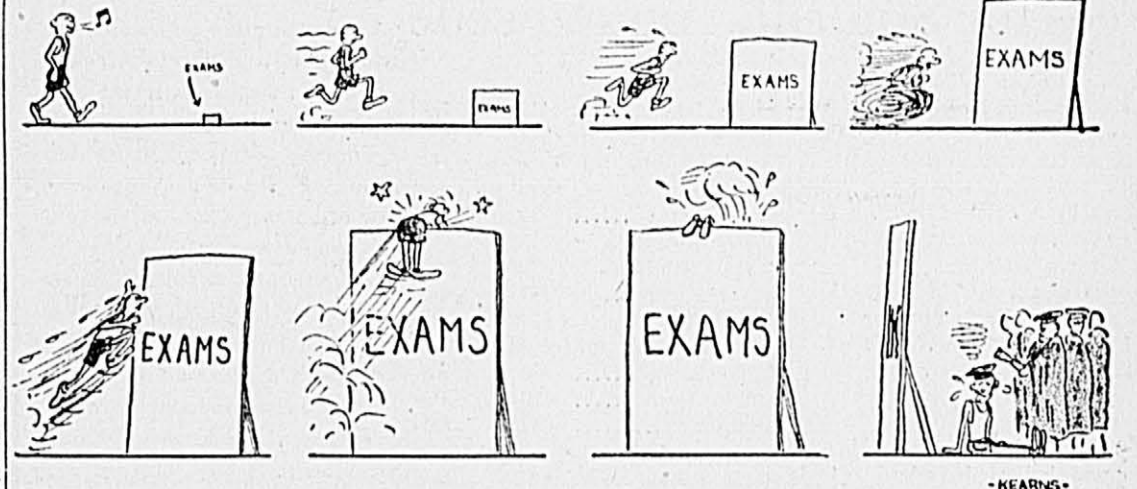

The outlook for next year is not much brighter. The permanent conductor remains unchanged, and so the biggest problem remains unsolved. The soloists chosen for next year are for the most part well-known and reliable performers but the programs chosen so far do not look too good. That famous two piano team of Robert and Gaby Casadesus who would have given us definitive performances of the Bach or Mozart Two Piano Concertos will instead be heard in a performance of M. Casadesus' own concerto for two pianos. While it is hardly fair to condemn a work without having heard it, we can say, after hearing M. Casadesus perform his own concerto for one piano and orchestra, that most people would derive more pleasure from a hearing of the earlier works. We can look forward to a performance by one of England's foremost pianists—Benno Moisewits.

Montreal musical activity conveniently slowed down after the cessation of publication of The Daily. The Ladies' Morning Musical Club and La Societe Classique very kindly permitted a representative of The Daily to be present at their concerts of the season.

LOTTE LEHMANN
At the Club we were fortunate enough to hear the inimitable Lotte Lehmann. Mme. Lehmann is undoubtedly the foremost exponent of the "Lieder-Art Song" on the Northern American concert stage today. Her voice is not of great beauty nor has it a wide range, but she sings her selections as though the words and music have been written for her alone, and as though she has lived through the story of each song. The programme also showed her amazing versatility for though German is her native tongue she seemed most at ease while singing some French folk-tunes.

The other programme at the Club featured two young musicians, Stuart Canin, violinist, and Jacob Lateiner, pianist. They played together and alone and it was evident at once that these young men

We've Had It!

will both be heard from again, and often.

JACOB LATEINER.

Mr. Lateiner seemed to be a more mature musician than his co-worker, and this was borne out at a recital he gave for the International Service of the CBC at which he played the Beethoven Sonata Op. III, and the Brahms-Paganini Variations. Both works were given mature, well-rounded performances that stood up well under comparison with performances by most other concert artists.

RUBENSTEIN.

La Societe Classique gained "The Daily" admittance to the recitals by Rubenstein and Szigeti. After hearing Mr. Rubenstein's work in the movies and some of his recent recordings, we came prepared for the worst, and were greeted by the almost perfect projection of Caesar Franck's Prelude, Chorale, and Fugue and Schumann's Carnival Suite. In these performances there was an almost ideal balancing of sentimentality and restraint. As an encore, Mr. Rubenstein played The Polonaise. At one point in it he raised his left hand a full three feet above the key-board and brought it down with a resounding crash... on the wrong note!

Szigeti

Joseph Szigeti was heard in recital with Josef Levine at the piano. These two fine musicians gave excellent performances of a Handel Sonata and a new Prokofiev Sonata, which they performed from manuscript. On first hearing this work sounded an ideal vehicle for Mr. Szigeti's amazing technique and musicianship.

Dean Douglas Clarke

Dean Douglas Clarke of the Faculty of Music was heard with the McGill String Quartet and William Morton in a performance of Ralph Vaughn Williams' "On Wenlock Edge." Dean Clarke's playing was a model of simplicity, tonal beauty, and restraint.

Charlotte Barriere

At the Conservatorium a young pianiste was heard in solo recital for the first time. Charlotte Barriere presented an ambitious program including a Bach English Suite, a Beethoven Sonata, and a group of shorter works by Chopin. We can do no better than quote her teacher Mr. Symons who was "both happy and satisfied."

Les Amis de L'Art wish to announce that their offices will be closed during July and August. Reservations will be taken for tickets to Les Concerts Symphoniques from June 15, and Membership, which is only 25c, for the season '48-'49, will open September 1.

As a reward to those who have plodded faithfully through this massive column, we make the following announcement. The McGill Daily has asked that special tickets be made available to students for the open-air concerts taking place at Molson and Delorimier Stadiums. For more information call The Daily or the Features Editor (CA. 452) a day or so before each concert.

ment will protest strongly against this new violation of the Postdam Agreement."

The "Neoboeftian Proletarian:"

"New acts of gangsterism by American Fascists in Austria. Following the numerous acts of gangsterism already reported by this newspaper, a new proof has been given of the fact that the United States considers Europe as her colony. The inhabitants of the small village of Niederberthalberg, in Austria, were the victims. Three gangsters from the American Forces have threatened the mayor, Herr Schnappz, with their revolvers, forcing him to surrender the treasure of the village. As only 25 Austrian Crowns (value 0.02 cent) were found in the safe, the Fascist gangsters set fire to the village, which entirely burned to the ground.

"The proletarians of all European countries have been shocked by this new act of terrorism, and everything indicates that with the help of the mighty Soviet Union, the peoples of Europe will soon free themselves from the yoke of American imperialism."

The "Huutsiplu Information" (no political opinion):

"Yesterday at 2 p.m., a fire broke out in the 10,000 inhabitants

Delectable Materialism

by Leonard R. Ashley

End-of-term time has always been party time. Successful students celebrate, crammers forget, and those who of us didn't cram are drowning, to coin a phrase, our sorrows.

Quite recently I sampled several punch-bowls and numerous assorted concoctions and have come to the conclusion that modern elbow-benders should use a little less soda water and a little more ingenuity. What is needed is someone with a galvanized stomach and an active imagination who will think up a few new recipes. Definitely now is the time for some good man to come to the aid of the party.

After some thought and considerable experimentation, I have created the following original recipes, and offer them to the public as a small contribution to the coast-to-coast national hiccuph. Each one is unconditionally guaranteed to affect your jaded palate in a manner that will astonish you.

SUNDAY PUNCH: Guaranteed to K.O. your friends. Serve in a glass jaw. To a gallon of any kind of ordinary punch add a gallon of cheap rye and half a dozen sliced kumquats. It's not very novel but it's the best way I know to eat kumquats. (If kumquats are unavailable substitute a gallon of cheap rye.)

RUM FELLOW: Rum, water, and chipped ice. So called because it won't cause a rye face. A Souse American drink.

PERCY BYSSHE SHERRY: Half gin, half sherry. Gives you a list to port.

ALOHE GOODBYE: Pineapple juice and rye. (Do not mix in a metal container.) With this Hawaiian drink you can have a hula-va good time.

MORTICIAN'S DELIGHT: Scotch, soda water, and beer in equal parts. Called "Mortician's Delight" because of the beer.

DRAPERLY COCKTAIL: Cheap wine, "alcohol," rye. Three glasses and it's "curtains" for you.

OCULIST'S SPECIAL: Straight gin. You can make a spectacle of yourself with just two glasses.

MCGILL DAILY: Half Scotch, half Rye, half lemon. Called "McGill Daily" because it's not red.

MOLOTOV COCKTAIL: Vodka and canned heat, half and half. Shake carefully, add tsp. of Uranium, and step back. Guaranteed to put any party over with a bang and to raise the spirits generally. Your guests will radiate happiness and go off smiling.

FROG: Frog without the water. After a few you'll croak.

RED STAR FINAL (Tomato Tornado): Equal parts vodka, tabasco, and tomato juice. After one you're Russian for another without any Stalin. After a second you're Lenin on the bar, and after your third the whole room starts making Revolutions. (Not recommended for sickle people.)

Frank E. Telfer Achieves Objective of Early 'Annual'

Students hurrying down to Rod-dick Gates after an agonizing search for examination results a few days ago were somewhat non-plussed to see a sign tacked on to the notice board announcing that the 1947-'48 McGill Annual was available. It is not known whether this sets some sort of a record, however, distribution a full 10 days before Convocation Day makes the 51st volume the earliest Annual in the memory of this year's graduates, and according to John Oullton, the managing editor, this feat was accomplished only by the determined efforts of Frank E. Telfer, the Editor-in-Chief, backed by an efficient staff.

Volunteers

At the beginning of the 1947-48 season the position of Editor-in-Chief of the "Annual" was still vacant and most students, knowing the risk of academic failure that has too often accompanied this position, were not anxious to take on this responsibility. Finally, Telfer, who had been Assistant

Sports Editor in 1945-46 and Associate Editor on the 1946-47 issue, volunteered and was appointed by the Students' Executive Committee. Complete reorganization of the annual year book with emphasis laid on efficiency and early

FRANK E. TELFER

publication was his aim and by insisting on rigid deadlines, without exceptions, he realized his objective.

Ambitions

Frank Telfer was born in Montreal in 1926 and entered McGill in 1943 after attending West Hill and Westmount High Schools. Graduating from the Science faculty this year his ambition is to go on into the Medical faculty where he has made application for admission, but as yet has not had word of his acceptance. Active on the campus, he has been with the C.O.T.C. since 1943 and the Red & White Society from 1946-48.

In accordance with tradition Telfer, as retiring Editor-in-Chief, will be adviser to next year's "Annual" editor.

city of Niederberthalberg, in Austria. Five minutes after the alarm 200 firemen were operating 20 powerful motor pumps, which sucked the blue waters of the Danube, 10 miles from the scene. The blue waters were youred generously upon the blaze. Nevertheless, the horror of the scene compares with those of the London Fire in 1666. A great heroism had to be displayed to rescue 500 children who were in the school. Unfortunately not one house of the whole city was left. The damages are estimated to \$2,000,000. Herr Schnappz, the mayor, was congratulated for the brilliant conduct of

(Continued on Page 11.)

You Never Can Tell

By M.G. Puvrez

A telegram from the "Inter-European News Agency" was sent to the newspapers of Huutsiplu, capital of the republic of Neoboeftia, (Western Europe):

"Vienna, February 30th, 1948, 2 a.m. Last night, in the village of Niederberthalberg, Austria a fire destroyed a farm belonging to the mayor, Herr Schnappz."

The morning edition of the newspapers of Huutsiplu related this news with perfect objectivity, and also adding some details in line with their general policies.

The "Neoboeftian Conservative:"

"Last night, a Russian patrol entered the American zone in Austria, without warning. They assaulted the village of Niederberthalberg. The mayor, Herr Schnappz, immediately organized resistance with the help of a handful of citizens, all veterans from Nazi concentration camps. In spite of the heroic action, the Reds set the village on fire, and it burned to the ground. The American occupation forces soon alerted, dispatched two fighter aircraft on the spot. As soon as the Reds saw this display of American power, they fled in disorder, taking with them a hundred prisoners as slaves.

"It is reported from Washington that very important people of the State Department have said, in an interview, that the American Gov-

ernment will protest strongly against this new violation of the Postdam Agreement."

Costs Soar Sharp Increase in Lodging Fees for Students Announced

The cost of education for students in the residences operated by the university climbed sharply last week as the authorities announced, "with reluctance and regret," increases in board and lodging fees at all residences with the exception of Macdonald College.

Increases are effective June 1 at the Peterson Residence for married veterans, Lachine, and Sept. 1 at the other residences. They range in percent from a low of about 15 per cent to a high of about 43 per cent.

It was indicated yesterday that board and lodging fees at Macdonald College would also go up. A definite announcement will come at a later date.

Reason for the increases was the "steadily rising costs of food and other supplies."

"It is with great reluctance and regret that the Board of Governors finds this step to be necessary, but for two years the fees paid by the students have been insufficient to cover the steadily rising costs of food and other supplies, as well as labor, and in view of the present large annual operating deficits the increase in rates is inevitable and in line with similar increases at other Canadian universities," an official release from Principal F. Cyril James said yesterday.

The release said that "even the increases now put into effect will only just be sufficient to allow the operation of these branches of the university to break even. They will still enable students to get board and lodging cheaper than elsewhere in town."

The smallest increases appear to be those affecting married veterans at Lachine where the average increase is about 17 per cent. Veterans pointed out, however, that even this increase wiped out, in many cases, the benefit of recent increases in their rehabilitation allowances.

The new scale of fees follows:

Residence	Present Rate	New Rate
Douglas Hall (per session)		
Single Room \$555	\$700
Double Room 513	660
Arts:		
Single Room 478	635
Double Room 438	595
Engineering:

May 25 Is Date of Women Graduates' Banquet in RVC

By PEGGY BENJAMIN
(Chief Staff Writer)

"We're doing everything we can to make it one of the outstanding events of the year for the Seniors," said Nancy McGill, Chairman of the committee for the Women Graduates' Banquet, when interviewed recently regarding this event. The Banquet, to be held at 6.30 p.m. on Tuesday, May 25, in the R.V.C. main dining room, will feature Mrs. Crummy, President of the Canadian Federation of University Women, as its guest speaker.

Mrs. Crummy, whose place of residence is Vancouver, will be travelling in Eastern Canada during the latter part of May, so the committee felt it should take advantage of this opportunity to present her to the McGill women graduates of '48 as their guest speaker.

In addition to this speaker, others will address the gathering. It is not yet known who is to give the valedictory, but the class prophecy will be presented by Peggy Jean Ross, President of the R.V.C. fourth year students. Joan Radley, next year's President of the Women's

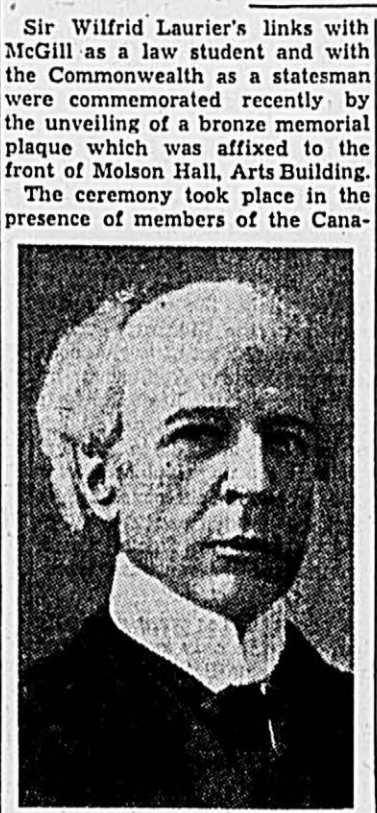

New Institute Founded Here

Among the many indications that the university is spreading and growing in influence is the proposed Personnel Appraisal Institute which will be inaugurated this summer as part of the program in view of linking McGill to the business community of Montreal.

This venture, a strictly McGill initiative and the first of its kind in Canada, promises to fill a long-felt need, proof of which are the 30-odd firms in Quebec and Ontario which have made advance reservations for participation.

Sponsored by the Department of Psychology and the School of Commerce, the Institute will operate for two weeks commencing June 14, and will have a seminar course in the Fall as a sequel. Dr. Edward C. Webster, lecturer and research worker in industrial psychology, will conduct the summer school. Among the lecturers, all recognized authorities on psychology, will be Dr. Joseph Tiffin, professor of industrial psych' at Purdue University; Dr. J. S. A. Bois, consulting psychologist at the Université de Montreal; Dr. George A. Ferguson, assistant professor of psychology here, and Dr. Charles Keptner, Stevenson and Kellogg, Montreal.

Sir Wilfrid Laurier's Link With McGill Commemorated

SIR WILFRID LAURIER

Sir Wilfrid Laurier's links with McGill as a law student and with the Commonwealth as a statesman were commemorated recently by the unveiling of a bronze memorial plaque which was affixed to the front of Molson Hall, Arts Building. The ceremony took place in the presence of members of the Canadian and University Senates, House of Commons, Provincial Legislatures, Board of Governors of the University, university staff and representatives of the University staff and Alumnae as well as Graduates' Society.

Officiating was the Ottawa Senate Speaker, Hon. J. H. King, Chief Justice Orville S. Tyndale, Chancellor of the University, officially received the plaque on behalf of the University.

The plaque, which is the gift of McGill graduates in the Senate and House, replaced the token wood plaque which was presented to the University by the late Senator Raoul Dandurand, associate of Sir Wilfrid Laurier, at a ceremony commemorating the 100th anniversary of the birth of the great Canadian statesman and McGill graduate, held in the Sir Arthur Currie Memorial Gymnasium-Armory on November 20, 1941, when Hon. C. G. Power, then Minister for Air, gave the commemorative address.

The words on the plaque read as follows: "To commemorate the life and work of the Right Honorable Sir Wilfrid Laurier, G.C.M.G., P.C., K.C., LL.D., graduate of the Faculty of Law of this university 1864, Member of the House of Commons of Canada, 1874-1919, Prime Minister 1896-1911, this tablet was presented

by McGill members of the Senate and House of Commons October 6, 1947."

The building to which the plaque has been affixed is the one in which Sir Wilfrid delivered the valedictory address of the class of 1864. Excerpts from this address indicate the larger views of citizenship and service which animated the great statesman's life.

He saw Canada peopled by the members of two great races, living in harmony and making a growing contribution to the world at large. His gratitude to his professors was voiced in terms of esteem and affection.

Sir Wilfrid's student career was marked by leadership, particularly in the realms of literature and debating; His keen and analytical mind made its mark on the campus. To this day debating is one of the major extra-curricular activities on the campus.

Changes Are Made Known In Psychology

The announcement of the resignation of Dr. H. E. Hoff and the appointment of an associate professor and an assistant professor of psychology were made following a meeting of the Board of Governors last April 14. Dr. Hoff, Joseph Morley Drake professor of physiology, has accepted a major appointment in his native country, the United States.

Dr. Julian M. Blackburn, the new associate professor of psychology, holds a B.Sc. degree from the University of London (England) and a Ph.D. degree from Cambridge. He will relinquish his present post at the University of London shortly, and will assume his new duties here at the Fall session.

The new assistant professor of psychology, Dr. H. Enger Rosvold, who obtained a B.A. degree from the University of Alberta; and M.A. and Ph.D. degrees from Stanford University, will also assume his duties in September. The department of psychology at McGill is now regarded as one of the outstanding departments on the continent.

Dr. Hoff Leaving
Dr. Hoff, who is a native of Seattle, Washington, has been named professor of physiology and chairman of the department at Baylor University College of Medicine at Houston, Texas. He came to McGill in December, 1942, from the Yale University School of Medicine, where he was an associate professor of physiology.

Dr. A. M. Fraser has resigned as assistant professor of pharmacology to become professor of pharmacology at Dalhousie University.

Two other resignations are those of Dr. G. D. Denton, jr., as lecturer in bacteriology and Mrs. B. M. Smith as demonstrator in physiology.

Other Appointments Made
Dr. E. M. Cooper and Dr. A. S. MacDonald have been appointed lecturers in surgery. Kenrick L. S. Gunn has been named a sessional lecturer in physics. R. T. Moffat and G. H. N. Towers have been made student demonstrators, and John T. Henderson named special lecturer in graduate evening courses in communication engineering.

Paul C. Borie has been made a demonstrator in electrical engineering. Fred Moore and Murray Heslam were named demonstrators in physiology. Elaine Wade was appointed teacher in primary department in the School for Teachers.

Dr. E. A. Blumenfeld has been named a lecturer in health and social medicine.

McGillites Attend SCM National Meet

Two McGill students are among the four elected to represent Montreal at the annual meeting of the National Council of the Student Christian Movement, which started Saturday and will last until May 22 inclusive, in Guelph, Ont.

They are Robert Wild, president, and Vincent Goring, of the McGill Chapter of the SCM. The other two are Sir George Williams College students: William MacAulay and Denman Tennock, respectively president and vice-president of the Sir George Chapter.

The National Council, the policy-making body of the movement, is returning to the scene of its birth for this meeting. It was organized in Guelph in 1920. There are chapters in 17 Canadian universities and colleges, including the two in Montreal.

In order to discover how the movement can witness more effectively in the universities, a number of commissions will study evangelism, ecumenical affairs and politics. Projects to be discussed include assistance to students in Europe and the Far East.

Dr. J. S. Thomson, president of the University of Saskatchewan, is chairman of the council. The movement is a member of the World's Student Christian Federation, which binds together Christian students in over 40 countries.

Fifty-first 'Old McGill' Now Available

The 51st McGill Annual, "Old McGill '48," is hot off the presses and more attractive than ever, for which Frank Telfer, editor-in-chief, and John Oulton, managing editor, are to be congratulated.

The "piece de resistance" is the message of Principal Dr. Cyril F. James, to the 1,500 students graduating this year, in which he recommends that they "hold fast to those fundamental principles for which we and our forefathers have repeatedly fought."

In his message to the students, Dr. James expresses his hope "that you will always be wise enough to keep your breadth of vision and to recognize the danger of narrow-minded specialization... Those men and women... whose only claim is expert knowledge of a special field will not satisfy the world's need for outstanding men and women," he said.

Chancellor Chief Justice Orville S. Tyndale urges the graduates "to perform your chosen or allotted task to the best of your ability; to devote as much of your time as possible to public service, and finally, to face your problems with good humor and a valiant heart." He adds that "by so doing, you will, whatever happens in the outside world, enjoy at least that inner sense which comes to those who are conscious of having done their best."

A special tribute is also paid G. H. "Finnie" Fletcher, Secretary-Treasurer of the Students' Society who is retiring after 25 years of service, and who will receive on Convocation Day the fifth honorary M.A. to be conferred by the University. "Finnie has not only been secretary-treasurer of the S.E.C., but also a wise counsellor to all, especially the many worried executives of the campus clubs and societies," reads the caption. "His friendly smile and bright sense of humour have made him one of the most loved and most approachable figures on the campus." The staff of the Daily know how true these words are, and would like to express their sincere gratitude to Finnie and best wishes in the years to come.

Grads Report On Enrolment Record Year

The Montreal Branch of the Graduates' Society has the highest membership in its history, it was reported by Drummond Birks, chairman of the Membership Committee. Out of 6,000 graduates residing in the Montreal area, he said, some 2,400 will be registered members by the end of this month.

It is estimated that there are approximately 17,000 living graduates throughout the Commonwealth and other parts of the world, of whom 5,722 are registered with the Graduates' Society, and an additional 3,000 have submitted application forms for membership. The Alumnae Society is also at its highest enrolment, with a registered 500 members out of a possible of 1,500.

At the same meeting, which was held under the chairmanship of Leslie N. Buzzell, Mr. Buzzell reported that an estimated 40,000 undergraduates and graduates will be looking for employment this summer throughout the Dominion. Of these, he said, 1,200 are at McGill seeking summertime jobs—they are veterans who must obtain summer employment in order to complete their studies.

Mr. Buzzell also informed the meeting that a new administrative plan for the Montreal branch of the Society is being organized whereby members at large will be able to have a greater and more direct share in determining policies of the Graduates' Society.

U de M to Expand English Courses

The introduction of a series of courses ranging from English philology and Shakespeare seminars to the history of English civilization and studies of the contemporary English and American novel has been announced by the Université de Montreal as a part of its expansion program in the study of Anglo-Saxon literature.

Candidates having a B.A. without a major in English will be required to take prerequisite courses during one preliminary year and pass qualifying tests. The graduate courses are planned for a four-year cycle and will be conducted by five English professors.

The subjects, to be spread over 12 hours weekly, will also include Canadian authors of English extraction, it was announced.

CONVOCAATION DAY

WEDNESDAY, MAY 26, 1948

9.30 A.M. Academic Procession
10.15 A.M. Convocation
followed by Tree Planting

In the afternoon the Principal and Mrs. James will entertain at a Garden Party in honour of the members of the Graduating Class. Those invited to attend, are the members of the Graduating Class, their Parents and/or Wives, the Professors, the Associate Professors and Assistant Professors of the Staff of the University.

An invitation card from the Principal which will serve as a ticket of admission to the Garden Party has been mailed to the City address of every member of the Graduation Class by the Convocation Activities Committee. This ticket of admission must be presented at the Gate.

Over 1500 Will Receive Degrees Next Wednesday

Medals Awards To Graduates Announced

The names of over 1500 students who will have degrees conferred upon them at next Wednesday's Convocation were released last evening by the Senate of the University following a meeting at which the largest graduating class in McGill's history went on record.

The final figure for the 1948 list of graduates, which includes all faculties and schools, will top last year's record of 1,075 by at least 500, and will represent an all-time high for the University.

Included in the list was an announcement of the students who were awarded medals. The pictures of the top award-winners will be found elsewhere on this page.

The following tabulation names all the students who have met all the requirements of their respective faculties and are thereby entitled to receive degrees from the University.

FACULTY OF ENGINEERING

BACHELOR OF ARCHITECTURE

Cornhill, Louis Eugene, Port-of-Spain, Trinidad; Desbarats, Guy, Beauport, Quebec; The Royal Architectural Institute of Canada Medal; Fraser, Robert Francis, Fay, William, Ont.; Gravel, Louis Jean-Marie, Montreal; Lazarovitz, Manuel, Montreal; Lemieux, Marilyn Dexter, Robertson (Mrs.), Montreal; Luke, Ann Elizabeth, Montreal; McLean, Jonathan Malcolm, Aylmer, East, Que.

Rosten, Hanka Helena, New York, N.Y., The Lieutenant-Governor's Medal for the student with the highest standing in the graduating year; the Hugh McLennan Memorial Travelling Scholarship; the Louis Robertson Prize in Design; the University of Toronto Medal; Martin, Arthur, Montreal; Townsend, Sydney Arthur, Union Hill, Jamaica; Wiesman, Brahm, Montreal.

BACHELOR OF ENGINEERING

Albert, Louis Adolf, Outremont; Ague, Thomas Alan, Montreal; Armstrong, Douglas Lyman, Montreal; honors in Mechanical Engineering; Audet, Jacques, Montreal.

Bailey, Edward Elston, Verdun; Barrett, Francis James, Riverside, N.B.; Bédard, Georges Arthur, Montreal; Blodreau, Joseph, Montreal; Jacques, Quebec, P.Q.; Blair, Gordon Robert, Montreal; Blake, Harold Thomas, Winnipeg, Man.; Blanchfield, Richard Joseph, Montreal; University Scholar, Canadian Pacific Railway Scholarship, Chemical Institute of Canada Prize for High Standing; Blauer, Aaron, Montreal; Borts, Robert Benjamin, Outremont; University Scholar, honors in Engineering Physics; Boulias, Jean-Jacques, Montreal; Bourke, George Mitchell, Westmount; Bowie, Robert Alexander, Montreal; Brough, James Rutledge, New Liskeard, Ont.; Bryan, Stephen Eric, Verdun; Bryant, Charles Arthur, Simcoe, Ont.; Bulatko, Cyril, Montreal; Butler, Gordon Mackay, St. Genevieve, Que., honors in Civil Engineering.

Campbell, Douglas John, New York, N.Y.; Campbell, Douglas Keith McLean, Halifax, N.S.; Carruthers, Graham Robertson, Montreal West; Carruthers, John Radcliffe Bertram, Montreal West; Cayford, Ralph Barrett, Montreal; Champagne, Roger, Montreal; Chant, Raymond Earle, MacGregor, Man.; Christmas, Walter Ivan Wynn-Ellis, Westmount; Coates, Donald Francis, Montreal; Rhodes Scholar, University Scholar, honors in Civil Engineering; Collier, Robert Douglas, Westmount; Engineering Undergraduate Society Third Prize for Summer Essay; Connolly, Robert Edward, Westmount; Cook, Christopher George, Montreal, honors in Mechanical Engineering; Cooper, Cecil Benedict, St. John's, Nfld.; Cooper, Ross Malcolm, Montreal, honors in Chemical Engineering; Corcoran, Gordon Alfred, Ottawa; Cosgrove, James Emery, Montreal; Coughtry, Douglas Cameron,

Montreal; Culton, Joseph Bernard, Montreal.

Dalkin, Robert Stainsby, Westmount; Decarie, Guy Roger, Montreal, honors in Civil Engineering; De Gory, E.F.; Demovan, John Douglas, Outremont; Dion, Martin Laurence, Chicago; Dillon, Harry, Montreal; Dobson, John Timmins, Westmount; Dorey, John David, Westmount; Dumka, Joseph, Arrowhead, Alta.; Dumuis, Joseph Vital Yves, Quebec, P.Q.; Dye, Robert George, South Porcupine, Ont., honors in Mechanical Engineering.

Edwards, Frank Harry, Longueuil; Elliott, Edwin Webster, Bridgetown, St. Ewing, Kenneth Harry, Windsor, Ont.

Fanjoy, William David, North Sydney, N.S.; Felton, Raymond Murray, Montreal; Ferley, Zenon Michael, Winnipeg, Man.; Finn, John Richard, Montreal; Fitch, John, Montreal; Flett, Lester Charles, St. John's, Nfld.; Forsyth, Clark Henry Bruce, Montreal; Franklin, Edward Arthur, Rio de Janeiro.

Gardam, Clive Maurice, Montreal; Geller, Bernard, Montreal; Giacomin, Peter Dominic, Montreal; Giacomin, Guyneville, Montreal; Giguere, Raymond, Montreal; Goud, Keith Porter, Montreal; Green Robert Stuart, Hampstead; Greenbaum, Joseph, Montreal; Groom, Lionel Henry, Montreal.

Haddad, Victor Alexander, Rawdon, Que.; Hadley, Henry Moffat, Verdun; Hale, Edward Chaloner, Montreal; Hardman, Laurice Edward, Montreal; Haring, Norman Franklin, Montreal; Harrison, Reginald Henry, Montreal; Herson, William Kenneth, Asbestos, Que., honors in Mechanical Engineering; Hobson, Percy, Montreal; Hollingsworth, James, Westmount; Howard, Donald William, Montreal, honors in Electrical Engineering; Howe, John Bruce, Ottawa; Howell, Allison Brant, Boissevain, Man.; Howley, Michael Francis, St. John's, Nfld.; Humphrey, Frederick Charles, Ottawa; Joseph, Patrick, Montreal.

Jenks, Richard Edwin Knollys, Port-of-Spain, Trinidad.

Jain, Purushottam Lal, Darial, Jubulpore, India; Jansen, Gerald Francis, Montreal; Jeffers, Elvin Nathaniel, New Haven, Conn.; Jeffrey, Douglas Eric, Montreal; Johnston, Bruce Leslie, Montreal; Johnston, Granville Raymond, San Juan, Trinidad; University Scholar; Jones, Kenneth Howard, Montreal; Jones, Morris Ross, Montreal; Jukes, Christopher Ewart, Saanichton, B.C.

Kemp, John Patrick Gordon, Montreal; Kenyon, Joyce Cecilia, Westmount; the Robert Forsyth Prize in Strength of Materials and Theory of Structures; honors in Engineering; King, John Charles Alwyn Hallows, North Tonawanda, N.Y.; Knox, Donald Ernest, Westmount; Kofman, Arthur, Montreal; Kubina, Stanley James, Montreal.

Lamarche, Mathieu, Montreal; Landry, Peter, Westmount; Langvine, Jacques, Outremont; Langner, Lawrence Lyon, Outremont; Lavne, Geoffrey, Peter, Quebec, P.Q.; Lefebvre, Joseph Guy, Beauport, P.Q.; Lemstra, Edward Benjamin, Aylmer; (M.Sc.) Thesis of Mount Royal; Leslie, James St. John, Arlington, Mass.; Levy, William David, Westmount; Limoges, Charles, Montreal; Lindsey, Charles Gordon, Gaspe, P.Q.; Lindzey, Robert John, Westmount; Lupu, Melvin, Outremont.

MacDougall, Bernard John Robert, Montreal; MacLean, Lloyd Thomas, Verdun, Westmount; British Association Medal, honors in Civil Engineering; MacLennan, Donald Hugh, Winnipeg, Man.; MacLaughlin, Duncan Patrick, Martintown, Ont.; MacLean, William Gordon, Windsor, N.S.; Madore, Guy Walter, Montreal; Mahon, Robert Weatherill, Westmount; Mills, Jack William Willford, Montreal; Monahan, Almas William, Berlin, N.H.; Moody, Hayward Stickle, Montreal; Moreau, J. Urbain, St. Louis du Haut, P.Q.; Morgan, Lloyd, Victoria, B.C.; Morris, George Reginald, Montreal; Mustill, Leslie Gordon, Montreal.

Nelson, Allan Roedler, Cluny, Alta.; Olsen, Kaare, Montreal; O'Neil, Robert Stuart, Westmount; Orstein, William, Outremont.

Paine, Edward Earl, Town of Mount Royal; Palmer, Edward Henry, Peter, Westmount; Palmer, Hedley Charles, Elmsdale, P.E.I.; Parker, Gerald Francis, Verdun; Patterson, Hugh John Trevor, Montreal; Pottevin, Louis Merrill, Montreal; Preziosi, Frederick William, Truro, N.S.

Radcliffe, Kenneth John, Montreal; West, Rae, Quebec, Montreal; Rethore, Ralph Holland, Montreal; Richardson, Kent Newman, Montreal; Riley, William Joseph, Toronto, Ont.; Engineering Undergraduate Society Second Prize for Summer Essay; honors in Mechanical Engineering; Rindress, Horace Grant, Halifax, honors in Civil Engineering; Ritcey, Glenn Chalmers, Middleton, N.S., honors in Me-

chanical Engineering; Ritz, Morton, Montreal; Rivet, Jean Gerard, Montreal; Robb, Gordon Alexander, Montreal; Rogers, James Terence, Westmount; British Association Medal, honors in Mechanical Engineering; Rogers, Patrick Frank, Montreal; Rosenberg, David Jack, Montreal; Roth, Sam, Montreal; Row, Ronald Victor, Beloit Station, P.Q.; British Association Medal, honors in Electrical Engineering.

Savage, James Christie, Westmount, Montreal; Branch, American Society for Metals Prize; Shama, Arthur Joseph, Charlottetown, P.E.I.; Smythe, William Siddale, Montreal; Somerville, Thomas Aymer, Westmount; Spencer, Colin Alexander, Montreal; Engineering Undergraduate Society First Prize for Summer Essay; Spencer, John David, Beauharnois, P.Q.; Stachewicz, Julius Wacław, Westmount, honors in Mechanical Engineering; Stairs, Colin Mackenzie, Montreal; Stairs, Denis Webb, Pointe Claire, P.Q.; University Scholar, British Association Medal, honors in Engineering; Stevens, William Donald, Westmount; Stevens, James Barton, Moncton, N.B.; Stym, Joseph, Stouy, P.Q.; Switzer, Frank, Montreal; Sylvia, Harold Clifford, Town of Mount Royal.

Tanvey, Peter James, Montreal; Taylor, Jack Richard, Winnipeg, Man.; Taylor, John Tillard Meadows, Lynn, Hants, England, honors in Mining Engineering; Terroux, Robert Jacques, Valois, P.Q.; Townsend, David Leonard, Westmount; Tralser, Frank, Montreal; Lachine, P.Q.; Trepapier, Gilles, Sherbrooke; Tucker, Henry Joseph, St. John's, Nfld.; Tyler, William John Lyne, Waltham, P.Q.

Vandray, Carl Wallace, Waltham, P.Q.

Ward, William Thomas, Montreal; Watson, Elinor Rosanna, St. Lambert; Winthron, William, Westmount; Wiselblatt, Lazare, Montreal; Wittes, Simon, Montreal; Wolfe, Norman, Westmount; Howell, Allison Brant, Boissevain, Man.; Wood, William Renfrey Muir, Outremont; Woodcock, John George Nelson, Montreal.

FACULTY OF GRADUATE STUDIES AND RESEARCH

MASTER OF SOCIAL WORK

Harshbom, Irene Dorothy, West Philadelphia, Pa.; Melanson, Mary Teresa, Bathurst, N.B.

MASTER OF ARCHITECTURE

Papanek, Rudolph Joseph, Montreal.

MASTER OF SCIENCE

Andrews, George Geoffrey, St. John's, Nfld.

Barwick, Andrew Joyce, Montreal; Boyle, Willard Sterling, Montreal.

Coldwell, Blake Burgess, Port Williams, N.S.; Crook, Helen Gertrude, St. John's, Nfld.; Cure, Charles William, Martinsville, Ind.

Doo, J.J.-Liang, M.D., Chungking, China; Dufresne, Cyrille, B.A., B.A.Sc., Quebec, P.Q.; Durrell, Winfield Booth, Macdonald College, P.Q.

Fuchs, Anita Marion, Montreal (Parasitology).

Gauthier, Fernand M., Ste. Anne de la Pocatiere, P.Q.; Gervais, Paul, Lennoxville, P.Q.; Gold, Allen, Montreal; Goldfarb, Albert, Montreal.

Hardwick, David Francis, Campbellton, N.B.; Henriksen, Arne, Nelson, B.C.

Jardine, John McNeil, Sussex, N.B.

Kipkie, George Frederick, M.D., C.M., Regina, Sask.; Kwicinska, Hanna Maria, Montreal.

LeVergne, Robert Louis, Montreal; Logan, Ralph Andre, Montreal.

Nelson, William Arnold, Lethbridge, Alberta.

Perivall, Walter Laurin, Quebec, P.Q.; Prado, Eline Sant'Anna, Sao Paulo, Brazil.

Robinson, Dean Boundy, Charlottetown, P.E.I.; Routly, Paul McRae, Montreal; Ruyter, Sally Ann, Pawtucket, R.I.

Smith, Alan Robinson, Vancouver, B.C.; Speakman, Thomas John, Field, B.C.; Stalker, Archibald Maclean, Montreal; Steppler, Howard Alvey, Morden, Man.

Tower, Donald Bayley, Darien, Conn.

Van Horn, William Fitch, Bedford, P.Q.

Wagner, Sydney, Montreal; Webb, James Laurence, Halifax; Wener, Joseph, Montreal; Whiting, Francis Beaman, Vancouver, B.C.

MASTER OF ENGINEERING

Bourne, James Douglas, Montreal.

Gersovits, Benjamin, Montreal.

Hall, James Stonely, Johannesburg, South Africa.

Students may come and students may go, but there are those people who remain in the memory of those who knew them and worked with them. For over a quarter of a century the students of McGill have known a man who was devoted to them, and whose memory will linger long in the hearts of those who worked with him. Such a man was G. H. (Finnie) Fletcher who is retiring as secretary of the McGill Union this year. In appreciation of Finnie's friendship, four people who worked with him for many years have presented him with a gift as their parting gesture. Pictured above from left to right are Finnie, with Mrs. J. Altham, George Foster, Miss Heasley and Josh Booth, all of the Union staff, who presented him with the gift. (Photo by Peter Hall.)

McGill's 'Finnie' Leaves Union For Peaceful Life

Contrast the mad state of the McGill Union on an average day in mid-term at noon-time, the rushing hustle, bustle of students in search of sustenance or vacant rooms in which to hold meetings—contrast this with a peaceful cottage in some peaceful village with a peaceful little well-stocked garden.

What a difference!

And if "Finnie" Fletcher's ambition is slated for fulfillment, several years from now will see him in precisely the latter environment. "Finnie," who is retiring this year following some 25 years as Secretary-Treasurer of the Students' Executive Council and Advertising Manager of the McGill Daily, in 1923, he was appointed Secretary-Treasurer of the Students' Executive Council.

The height of "Finnie's" career, however, comes today when he is presented with an honorary M.A. degree from the University. "I never anticipated anything like that," he told us modestly, after we reassured him how well-deserved we considered the award.

"My whole lifetime at McGill—including 5 years of Arts and three years in Theology—has been the most happy life I could imagine for myself," he added.

Before he left, we renewed the topic of the pleasant-sounding country home which "Finnie," together with his wife, hopes shortly to see as a reality. He took our hint.

"We'll issue a standing invitation to all McGill students to visit us," he said.

The cheerful McGill graduate of 1911 who was later to devote so much of his life to McGill students originally started his college education with the aim of becoming a Presbyterian minister, "to serve

Dean Gillson Named Manitoba President

The Dean Bids Students Goodbye

You and I are coming to the end of a very important period in our lives. There is nothing we can do or say in the future which will not be influenced by the years we have spent in the classrooms or on the campus of "Old McGill." During those years we have been members of a community whose foundation and perpetuation is a tribute to great Canadians whose inspiration has been fired by the central significance of that fellowship found only in the halls of the great Universities.

We have found deep friendship; we have seen the many-sided quality of truth and beauty; but because of our participation in these great privileges, responsibility sits upon our shoulders.

If these years mean anything, they will mean a critical approach, the possibility of distinguishing the phony from the real, a sense of duty and the possession of the kind heart.

I have learned a great deal about you and from you, and my faith in the future of Canada is in direct proportion to the admiration which I possess for the men and women who will graduate in this, and future years from the faculties of McGill.

The appointment of present Dean of Arts and Science A. H. S. Gillson, as President of the University of Manitoba starting July 1 was announced over the week-end. Dean Gillson is succeeding Dr. A. W. Trueman, who resigned to accept the presidency of the University of New Brunswick.

During his year as Dean of the Faculty of Arts and Science, Dean Gillson acted also as chairman of the Mathematics Department and was elected president of the Federation of Canadian Artists, and finally elected this year president of the Canadian Arts Council.

He is a graduate of Cambridge University, where he won six scholarships, and served with the Royal Navy in the first war and with the R.C.A.F. in the recent

conflict. He came to Canada in 1921 and acted as assistant professor of mathematics at McGill, where he has remained since except for his six years of service during the last war.

In September, 1945, he was appointed vice-principal of Dawson College, and has been lecturing to honors and graduate students in applied mathematics conjointly with post of Dean throughout the academic year. The name of his successor has not yet been made known.

He is a graduate of Cambridge University, where he won six scholarships, and served with the Royal Navy in the first war and with the R.C.A.F. in the recent

DEAN A. H. S. GILLSON

Hon. Wilfrid Bovey, O.B.E., To Relinquish McGill Post

The director of the Extension Courses, Hon. Wilfrid Bovey, O.B.E., M.L.C., a well-known author as well as an educationalist of merit, will soon relinquish his university post, it was disclosed last May 12. The announcement was made public at the annual meeting of the Advertising Sales Executive Club of Montreal.

Although Col. Bovey's resignation is not to become official until some time in June, when the Senate has taken formal action, the news was made public by the Ads Sales Club president, Harry E. Smith, who expressed his regret at Col. Bovey's retirement. This decision, he said, would result not only in a loss to the university, but to the members of his Club as well, who will find themselves deprived of his advice and guidance in the future.

In his reply to Mr. Smith, Hon. Bovey said that his retirement would not be so extreme that he could not come to them for advice instead. "I feel that the help of this Club has gone a long way towards bringing our university into touch with the business people of Montreal," he said, praising the advertising men for their spirit of co-operation in the extension which he directed. Before concluding he advised those present: "Your task is educating the Canadian public to keep Canadian economic activities up to the highest possible level for the next few years. I wish you all success in your work."

Beginning next year students working towards the degree of B.A. will have to pass at least 3 full courses in the first year. Second, Third, and Fourth year students will not be allowed to fail more than one full course or 2 half courses.

Supplementary examinations must be written the following September and written application for permission to write these "supps" must be in the Dean's office by August 15th.

Senate Approves New Arts Standards

The proposed raising of class standards by the Arts Faculty has been approved by the Senate.

Beginning next year students working towards the degree of B.A. will have to pass at least 3 full courses in the first year. Second, Third, and Fourth year students will not be allowed to fail more than one full course or 2 half courses.

Supplementary examinations must be written the following September and written application for permission to write these "supps" must be in the Dean's office by August 15th.

Mathematician N. B. MacLean Retires From Faculty Post

With the announcement of the retirement of Professor N. B. MacLean by the Senate of the University yesterday, the next generation of engineers and mathematicians of McGill will lose a gifted and valuable friend. It is with this feeling that many of the recent graduates and students now on the campus greeted Dr. MacLean's coming retirement.

Born in Bruce County, Ontario on April 14th, 1883, received his B.A. at the University of Toronto in 1906 and was a gold medalist in mathematics. He received M.A.'s from the Universities of Toronto, and Manitoba in 1908 and a Ph.D. (magna cum laude) from Chicago in 1923. From 1910 to 1927 he taught at the University of Manitoba, then was employed by the Sun Life Assurance Company from 1927 to 1930 and came to McGill from this Company.

He was made professor of applied mathematics and joint chairman of the mathematics department in 1930 and chairman in 1942. During World War I he served overseas from 1915 to 1919, won the D.S.O., was twice mentioned in dispatches and rose to the rank of Lieutenant-Colonel.

During his lifetime Prof. MacLean has received many honors and is a Fellow of the Royal Astronomical Society (Canada), member of the American Actuarial Society, and the American Institute of Actuaries.

Having taught principally in the Engineering department, he was very popular at McGill, well liked by all his students, and will be missed by both undergraduates and graduates alike.

Annoucement Made of Major Staff Changes

Dr. Muriel V. Roscoe, Dean of R.V.C., has been appointed professor of Botany, Dr. James announced recently. She is the second woman to hold a full professorship at the university, the first being Dr. Carrie Derick, who retired in 1929 from the chair that Dr. Roscoe will occupy. Four other important appointments and promotions, listed below, were announced at the same time.

Dr. Roscoe, native of Centreville, Nova Scotia, joined the staff in 1940 as assistant professor of botany and warden of R.V.C. She will retain her post at R.V.C. it was announced.

Dr. A. S. Lamb will be the director of the newly-created department of Athletics, Physical Education and Recreation. He has been serving in the capacities of Professor of Physical Education and director of the School of Physical Education, which functions will now be held by Dr. J. B. Kirkpatrick. Born in Saskatchewan, Dr. Kirkpatrick was director of physical fitness under a Dominion-Provincial fitness plan there. He will join the McGill staff in the Fall.

Dr. C. P. Leblond, up to now associate professor of Histology, has been promoted to a full professorship in anatomy. A native of Lille, France, he is a graduate of the University of Nancy, Universite de Montreal and Paris Medical School. He was a Rockefeller Fellow from 1935 to 1937, joined the staff of the university in 1943 and returned after leave of absence to fight with the Free French Forces of General Charles De Gaulle.

Columbia University graduate Vic Obeck, head football coach last year, was appointed director of intercollegiate athletics.

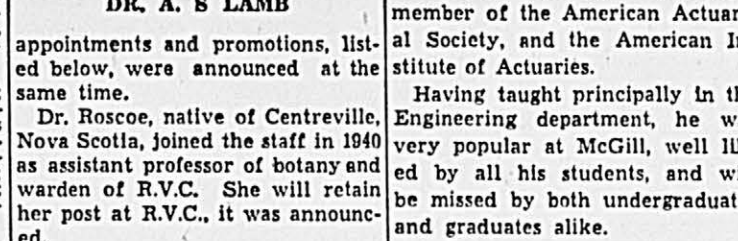

Montreal; King, Nelson William, Montreal.

Lamontagne, Andre Charles, Ottawa; Lamothe, George Dominic, Quebec; Lane, Percy William Ward, Montreal; Leboff, Samuel Joseph, Montreal; Leckman, Wolfgang Arthur, Montreal; first class honors in German; Levesque, Joseph Omer, Montreal; Levine, Albert Norman, Ottawa, first class honors in English language and literature; Lison, Donald Robinson, Montreal; Little, David, Montreal; Lord, Glyn Merton, St. Lucia, B.W.I.; Lucas, Rex Archibald, Clarkson, Ont., second class honors in sociology.

MacCarthy, Alan Howard Stafford, Ottawa, Ont., second class honors in economics and political science; MacDonald, William Alwood, Westmount, first class honors in economics and political science; McGuigan, James Francis, Montreal; Mackell, Peter Robert, David, Ottawa; MacKenzie, David B. Sinclair, Westmount; McKeown, James Lorne, Smiths Falls, second class honors in economics and political science; Mackey, Alan Forbes, Westmount, second class honors in psychology; McLeod, Duncan William, Niagara Falls, Ont., second class honors in English and history; McMahon, John Maxime, Montreal West; MacMillan, William Hopner, Waban, Mass.; McVittie, John Irving, Hamilton, second class honors in economics and political science; Magee, Charles Edmund Delamere, Toronto, second class honors in economics and political science; Maslin, William Arthur, Montreal, second class honors in sociology; Marcus, Birdie, Robert, Montreal; Monk, John McCaughan, Ottawa, second class honors in philosophy; Morgan, David Walker, Montreal; Morris, Alexander MacLaren, Montreal, second class honors in sociology.

Nash, David Leo, Ottawa; Nichol, Walter, Wingham, Ontario; Nickle, Arthur Grant, Montreal, second class honors in economics and political science.

Palmer, James Simpson, Charlottetown, P.E.I.; Patisel, Daniel Moses, Montreal, second class honors in economics. (Continued on Page 11)

Championship Laurels Elude McGill Senior 'Big Three' in '47-48' Intercollegiate Play

In the way of plaques, medals, awards etc. the teams representing McGill in the "Big Three" of intercollegiate sports haven't very much to hang up on their clubhouses' walls. No tear-perking sob stories needed to explain the lack of materialistic laurels for the past season's play. They went out onto the gridiron, ice sheet or gym floor with all of the fibrous gumption of champions, frequently with plenty of class, but invariably without the good wishes of Dame Fortune. La Rue de Rumour has it that a contract has been made with this Lady(?) for the forthcoming season.

When spring comes, can fall be far behind? And when fall in its turn comes, will McGill be far behind? — not if Vic Obeck can help it. As a matter of fact, if the genial, sandy-haired grid reinsman had his way, the Redmen would need a telescopic rear-view mirror to keep an eye on the other clubs holding up the hind end. Whether this will come to pass will be revealed by time alone. To achieve this desired station the McGillians will require some expert finagling plus a fair measure of luck.

As things are at the present, "luck" is a plentiful commodity around the environs of Molson's Stadium, but its all bad. As it finally to all men, graduation has thus come to some nine footballers, the passing of whom will leave large gaps to be plugged in the ranks of the Big Red Machine. Coach Obeck hopes to fill some of these holes by rearranging his battle array, but new material is most emphatically needed to add punch and depth to the attack.

Among the missing when the opening whistle blows to start the '48-49 season will be such capable performers as Tommy Bridel, Lou Lanier, Jo-Jo Smythe, Bob McBoyle (he may be back), Murray Greatrex, Red Syrett, Ken Nickerson, Joe Huzza and Jasper Holliday. This group will be trading in the pigskin for the sheep skin with the biggest game of all still ahead of them.

Even though we did not win the intercollegiate championship I consider the past season a great success." With these words Red hockey coach Dave Campbell set off the festivities at the annual hockey banquet tendered the team by club President Albert Fyon at the Queen's Hotel. When asked to explain what he meant, the portly mentor continued, "I mean that the season was successful in that the team just never admitted that they were licked, coming up off the floor twice to beat Varsity when it looked as if everything was lost."

In describing the actual season's play, coach Campbell dwelt lengthily on two games in particular. The first one against Les Carabins which the Redmen lost by a hair plus a goal, thus costing them a possible championship, and the last one in Toronto against the Blues (who now wear the Intercollegiate Crown) which the Redmen won, fighting their hearts out with their backs to the wall. This game alone was worth the whole season's efforts and showed what a fighting determined team can do even with

Among the brightest lights on the Big Senior Red Grid Machine was linesman TOMMY BRIDEL with his stellar offensive as well as defensive performances.

Judoists Handicapped By Many Mishaps

Dame Fortune played a frolicking game of havoc with this year's judo team, of which almost half of the original members who turned out suffered early season injuries both on and off the judo mats. As if this weren't enough, Coach Rog Hutchins was involved in a motorcycle accident early in January which left the hapless crew without a coach for the rest of the season.

Nevertheless the undaunted remainder of the squad met with the Y.M.C.A. crew in the last Athletics Night of the season. Unfortunately, McGill lost all of the matches except one, where Redmen Eddy Walters, of wrestling fame, came through with a tie.

Intercollegiate Records Set By Trackmen

Although the McGill senior track team lost the season's major event, the Intercollegiate Meet, the Red and White seconds managed to walk off with the Intermediate championship. Turning to the boards for the winter meets, the Van Wagner-coached Reds successfully competed in the B.A.A. games at Boston, the Legion Parade of Sports at Montreal, and the Hamilton Meet.

The local track and field men garnered several laurels in the latter meet, when the McGill crew captured the Lieut.-Col. Frederick E. Wigle Trophy for the Intercollegiate Mile Relay Championship, with Munroe, Swanzy, Spence and Robinson doing the honours for their Alma Mammie. The same meet saw a McGill victory in the 880-yard relay as well, plus a win

by Arisman Paul Fenton who whizzed through the mile in four minutes and thirty-two seconds.

NEW RECORDS The team captain, and perennial individual star in Intercollegiate meets, Lionel Fournier, made his last year in McGill colours an outstanding one, as he set a new provincial and collegiate record in the throw of 135 feet, 10 1/4 inches. The Redmen set another record at this meet, when Ted Fairstat putted the shot 42 feet 2 1/4 inches. Besides Fournier and Fairstat the only other McGill men to cop an event was Hugh Munroe, next year's captain-elect, who defeated Western's highly touted Jack Parry in the 100 yards dash.

Redmen Win Boxing Crown; Wrestlers Edged By 1 Point

Highlighting a year's hard training and a series of highly competitive exhibition meets with well known American and Canadian teams, the Red and White pugilists pounded their way to a Senior Intercollegiate Championship this year, winning out over top flight Varsity, Queen's and OAC teams, with four of the boys getting individual Intercollegiate titles.

Mill Orr, John Heney, and Frankie Creaghan in the 147, 140, and 160 lb. divisions respectively copied top laurels in their weights for the second year in a row with young Griff Marshall getting the crown in the 130 lb. division for the first time.

Olympic Guff This year for the first time in a long, long while, McGill boxers were considered to be "high calibre" in the regular AAU events, winning 98 per cent of their bouts. As far as the Olympics are concerned, none of the Redmen entered the elimination tourney recently held in Montreal. Coach Phillips explains this on the basis that exams and Olympic training "don't seem to mix." It will be remembered that just recently Johnny Ravanda of Montreal gave Cliff Blackburn quite a tussle be-

Sports in Shorts By Lis

Ship Ahoy! Its congrats to the coed sailing crew who capped second place at a recent sailing meet at Middlebury. Nosed out of first place by the powerful Skidmore squad, the girls managed to defeat their arch rivals and hostesses the Pantherettes who trailed in behind the St. Lawrence crew. All going to show that skiing isn't everything! From all reports a good time was had by all, although for anyone who knows the Middlebury hospitality, this would be a foregone conclusion!

With an eye to the future, all fingers should be kept crossed for our swimming stars who are doing their darndest to cop an Olympic berth. Greatest threat to Eastern hopes will be breast stroke swimmer Irene Strong of Vancouver who recently broke the Dominion record, but your old Alma Mammie's plugging for you though

RACQUETEERS Two gals with racket who will undoubtedly go far this summer are June Devaux and Elaine Fildes. Better keep an eye out for them when Provincial and Dominion trials get underway. We expect to see them right up on top. Best of luck gals!

Now for us, the lesser lights; the gals with the inclination who lack that spark of genius it takes to get to the top. What of us? Summer stretches out with many inviting activities just waiting for our magic touch. Golf courses stand ready to bear the scars and scratches of the amateur; lakes, tennis courts and highways lie as a challenge to our souls. Summer will pass all too quickly as we answer the call, throwing ourselves energetically into these pleasant activities which in turn will leave us at the end of the summer with many happy memories and a desire to return to our seat of learning for another busy year.

McGill Loses Fine Sportsman By Death of Dr. Bobby Bell

With the death in mid-March of Dr. Robert Blagrave Bell, McGill lost one of its keenest sportsmen and most popular figures. Though he is known primarily for his athletic achievements, Dr. Bell was active in many other lines of en-

With talent of this sort at his command, it might be said that any coach would do well, but Bobby Bell somehow seemed to get just a little more than any one else out of them. To this day, all who were directly connected with the Doctor, praise him to the echo for his ever-present good humor and complete sincerity. McGill is much the poorer for the death of Bobby Bell.

The late Dr. 'Bobby' Bell

deavor and excelled in whatever field he participated.

"Bobby," as he was familiarly known by everyone, first became associated with McGill when he enrolled as a freshman in the fall of 1922, and he maintained this contact in one capacity or another, for a full quarter century up to his ill-timed death. During this twenty-five-year span, he was directly instrumental in bringing to McGill a full share of hockey glory by guiding the Red puckmen through their "Golden age," that period in the middle thirties when they swept aside all comparable competition.

Coming to McGill from Westmount, he made a place on the senior puck squad on his first attempt, and along with such stalwarts as Flin Flanagan and Dr. Vee Heney was one of the mainstays of the team for six winters until he graduated in Dentistry in '28.

After a one year absence from the McGill hockey scene, he returned to take over the active coaching role and immediately proceeded to lead the Redmen to five out of six intercollegiate championships, and one senior group crown. From the senior group title, he took his charges to the Allan Cup semi-finals where they were barely nosed out by the powerful Moncton Hawks. Some of the more notable performers who wore the Red and White at that time were Kenny Farmer, Gordon Crutchfield, the late Maurice Powers, Gordie Melkejohn and many others of this high calibre.

by Arisman Paul Fenton who whizzed through the mile in four minutes and thirty-two seconds.

NEW RECORDS The team captain, and perennial individual star in Intercollegiate meets, Lionel Fournier, made his last year in McGill colours an outstanding one, as he set a new provincial and collegiate record in the throw of 135 feet, 10 1/4 inches. The Redmen set another record at this meet, when Ted Fairstat putted the shot 42 feet 2 1/4 inches. Besides Fournier and Fairstat the only other McGill men to cop an event was Hugh Munroe, next year's captain-elect, who defeated Western's highly touted Jack Parry in the 100 yards dash.

Combines Win McGill Floor Hockey Crown

Unassuming college students with noble ideals pounding in their naive breasts, shed their intellectual cloaks ever-so-often and indulge in a little mayhem. None lash out at the big bad world with more vigor than the lads who take part in the illegitimate off-

spring of Canada's national sport, namely, Floor hockey. It was a pack of pucksters known as the Combines who out-lived a slightly less ferocious crew called the Alkies in the finals of the McGill League and consequently stumbled, crawled and were carried off the Sir Arthur Currie Gymnasium's floor as Victors of the '47-48' Red Floor Hockey season.

McGill Intermediate Pucksters Win Title by Nosing St. Pats

In their first year of active organized competition, and despite all kinds of financial and transportation difficulties, the McGill Intermediate pucksters brought home the championship by nosing out Ottawa St. Pats in the final game of the season.

Many Obstacles
The intermediate loop was put together very hastily, and the six clubs involved had a great many difficulties to overcome other than financial and transportation problems, mostly in the finding of suitable ice. Many was the time after travelling some sixty or seventy

miles in a broken down old "air conditioned" bus, the hockey players would find that they had to play on an outdoor rink which had also suffered the ill effects of the variable temperatures.

Shows Promise
Nevertheless the circuit showed great promise, and mindful of the distinct advantages that an organized intermediate league has on the senior league, it is reasonable to believe that the loop will be continued next year.

Great credit for the success of the league is due to Coach Ross Hutchins who was instrumental in organizing the group and who brought his charges through to the title. Ross was greatly abetted and aided by Don Bussiere, Charley Lafontaine, Tommy Bridel, Jo Jo Smythe, Herb Kert, Johnny Vincelli, Joe Malon, Rupe Rubens and many others who went through sundry adversities to give their all for the old alma mater.

J. W. McConnell Gives University \$12,500

Two donations to the University with athletics at McGill University for a full quarter of a century. His resignation from this "institution of learning" has left a wide gap in all things concerned with sports among the wide-open spaces behind those Roddick Gates. It will probably take more than one man to do the mechanical end of the job "Harry" has been at for the past 25 years; but it would be a hazardous undertaking to make an estimate of how, what and/or who will be the replacement in terms of that more potent stuff — usually put into words as "moral backing" — that has been one of his major assets in endearing him to

BOTH ARE LEAVING

The loss of both **TRAINER HARRY GRIMES**, left, and **COACH IRVING PHILIPS** will leave the McGill sports set-up much the poorer next year. Harry Grimes has been with McGill senior intercollegiate hockey and basketball squads for the past 25 years, and will be a very hard man to replace, as will be boxing coach Irving Philips. Philips has handled McGill boxers for only a few years, but in that short space of time has proved invaluable to the Red pugilists, culminating his last year's hard work with an intercollegiate championship boxing team.

Harry Grimes Leaves McGill After Quarter of a Century

Harry Grimes has been connected with athletics at McGill University for a full quarter of a century. His resignation from this "institution of learning" has left a wide gap in all things concerned with sports among the wide-open spaces behind those Roddick Gates. It will probably take more than one man to do the mechanical end of the job "Harry" has been at for the past 25 years; but it would be a hazardous undertaking to make an estimate of how, what and/or who will be the replacement in terms of that more potent stuff — usually put into words as "moral backing" — that has been one of his major assets in endearing him to

all the Redmen that have come under his care.
Still In It
Harry hasn't cut himself entirely from the active list in the field of athletics. He is at present the trainer of the Montreal Allouettes. Lew Hayman considers himself a lucky man to have around, for he knows full well the inestimable services that Harry has rendered to such famous Red mentors as Shag Shaughnessy, the late Dr. Bobby Bell, Doug Kerr, Dave Campbell and Vic Ocker, just to mention a few.

Le Royer Mainstay In Red's Tennis Victory at Toronto

Playing beneath a blazing-hot mid-October sun, the Red Netmen brought home one of the two team championships won by McGill during the 1947-1948 season. The locale of this triumph was the University of Toronto courts in the Queen City, with the Blue and White acting as hosts to Queens and Les Carabins of the University of Montreal as well as the Redmen.

Individual star of the tourney was Charlie LeRoyer, diminutive number-one man of the McGill quartet. The game speedster copped the singles title and moved down the opposition without a blemish on his perfect score card. Sporting a blistering serve and a dogged retrieving game, the third-year Commerce student swept through the two day series of matches without faltering.

The other Red representatives, all of whom acquitted themselves nobly, were Breen Marlen, Bob Duford and Jim Spencer who was acting captain. This trio also went undefeated in matches but could not quite come up to LeRoyer's brilliant form.

Lose Doubles
The only defeat suffered by the Redmen was in the doubles finals and this was at the hands of the Varsity netmen. The Toronto duo

of Hall and Anderson packed just too much reach and power for McGill's Marlen and LeRoyer and were declared the new intercollegiate doubles kings.

At the bottom of the heap, the Gaels and the Carabins fought it out to the wire with the third spot depending on the final match. The Flying Frenchmen eventually won out leaving the cellar slot for the tricolor.

All four of the championship Red squad are expected to be back at the Sherbrooke St. Institute of higher education next year which bodes well for Red net hopes. Last year's win was the third in a row for the Redmen which makes it look as if this occurrence might well become an institution for the Red and White.

Neilson's Malted Milk Candy Bar
VERY SATISFYING VERY NOURISHING

Two donations to the University with athletics at McGill University for a full quarter of a century. His resignation from this "institution of learning" has left a wide gap in all things concerned with sports among the wide-open spaces behind those Roddick Gates. It will probably take more than one man to do the mechanical end of the job "Harry" has been at for the past 25 years; but it would be a hazardous undertaking to make an estimate of how, what and/or who will be the replacement in terms of that more potent stuff — usually put into words as "moral backing" — that has been one of his major assets in endearing him to

M. A. BRODEUR
34 Notre Dame East L.Anc. 2776
Established Since 1890

Both hefty, stolid **"GOOSE" GOSSELIN** (left) and tall, lanky **WARD PITFIELD** will be very conspicuous in next year's senior intercollegiate hockey lineup; not by their presence as they were this year, but rather by their absence. Graduation is taking its toll of hockey players this year, and sadly missed will be Pitfield's flashy, speedy play and Dick Currie's reminding. Gosselin may be back next year if he can be persuaded to take enough credits to make him eligible.

Harry got his first grounding in the knowledge of the muscular

make-up and treatment of the human body during his days in the Royal Navy of the First World War. He probably never received the fullest acknowledgement of his worth to the university from the "higher-ups" for his many and varied general tasks, and for his more visible handling, in the capacity of trainer, of the senior grid and hockey squads.

During the time that Harry Grimes has been at McGill many meaty offers have come his way from various sources in attempts to capture his services. Why did he stay? Well, you better ask him yourself. Harry Grimes can never resign from McGill. Wherever McGill graduates, who have taken part in Red and White Athletics, go, there goes a piece of 'arry'.

U of T Edges Redmen Out of Waterpolo Title

The McGill Senior Waterpolo Team ended up in second place in the Intercollegiate Circuit this season after trouncing the Queen's aggregation and then going on to drop a really close splashy affair, along with the championship laurels to the Blues from the University of Toronto. Among their exhibition encounters was one against a squad of lads from Howard University, an all-Negro institution in the United States. The Howardites had had difficulty in getting competition in American Colleges.

Famous Corner Scene of Hot Athletic Confab

McGill student tells the story of how he went for a stroll last Saturday evening to catch a little fresh air after a hard day's work as a "Retriever of Waste from private houses within the municipality of Montreal" when all of a sudden he found himself at the corner of Peel and Ste. Catherine fanning the breeze with a number of highly publicized local yokels. In the midst of some engaging repartee among this group of distinguished, a human being of obviously uninformed sources began vouching his trade—which was that of horoscopia, a type of deducing the value of past experience for the future, or less frequently referred to as second guessing.

Homilus Nimbus

Among many of the ejaculations of this intruder was one which particularly attracted the attention and stirred the homilus nimbus fibres of his round shoulders as well as the over-strained students of his eyes. This happened to be a loud burst of verbiage concerning the sporting activities of McGill students. He claimed that such things as Athletics Nights and most especially the ultra-famous Winter Carnival had led to a great deal of favorable comment in inter-planetary space and had raised the odds in McGill's favor to, at the very least, even money.

The McGill student, turning to his worthy cohorts, began to reminisce over the enjoyable experiences he had had at the famous Big Red combined social and athletics events, and most especially at that great extravaganza which went under the monicker of the McGill Winter Carnival. He told of the tobogganing, skiing, hockey, basketball, boxing, judo, dancing, wrestling, etc., etc., that had taken place and which he had enjoyed with much vim along with a not too-considerable quantity of vigor.

On the outside there is a striking difference between the wiry frame of **CHARLIE LE ROYER** (left) and the rugged musculature of **JOE HUIZA**. But on the inside they're both made up of the same stuff, the stuff that makes for champions. Last fall Le Royer won the Senior Intercollegiate Men's Individual Tennis Championship, while Joe Huiza won the acclaim of thousands of fans as one of the toughest linez men in the senior intercollegiate football circuit. He's another one of this year's graduates.

Buff Donneli Heads Second Annual McGill Grid Clinic

McGill's second annual football clinic was held during the first week of May under the supervision of Head Coach Vic Obeck. More than 100 coaches and players from Montreal and surrounding points attended the four-day affair held at the Molson oval and in the Currie Gym.

Donneli Here

Started by Vic Obeck last year, with Columbia's Lou Little as guest mentor, the clinic this year was fortunate in having Aldo "Buff" Donneli, general of Boston University's grid squad, (which may line up an annual contest against Notre Dame come 1949) as guest coach.

In an effort to provide the game around these parts, Obeck, assisted by Gordie Marriott, Danny Daniels and Bill Davies, led the sessions the first two days and dealt impressively with such questions as tackling, offensive and defensive line play.

manner of conveying grid fundamentals proved a high point of the clinic. "Buff" effectively demonstrated different phases of the game such as passing, kicking, line play, and blocking. To illustrate his points more clearly, he showed movies of the N.Y.U.-Colgate game.

The noted Boston mentor also spoke of the differences between games. Forward passing, he claimed, is the feature of the game played below the border, favored by the fans rather than kicking. He also discussed the "jump" pass, saying that such accuracy is lost by throwing the pigskin while in the air. During his two-day discussions, Donneli also stated that a man isn't helping his team unless he stays on his feet after throwing a block.

Judging from the turnout, the clinic proved successful, and such bull sessions should become an annual affair.

FLEET FOOT THE SHOE OF CHAMPIONS

Look at the features that make Fleet Foot the finest shoes you can buy for sports. Here's the "Gym" — scientifically designed to provide maximum comfort and support, and to stand up under the most strenuous playing conditions. High cut and oxford styles in men's sizes, oxfords in women's sizes. Remember to ask for Fleet Foot, the Shoe of Champions, at your shoe dealer's.

- SCIENTIFIC LAST**
Permits feet to function as nature intended.
- SLANT-CUT TOPS**
Streamlined for flexibility and snug fit.
- CUSHION INSOLES**
Absorb shocks, lessen foot fatigue.
- BREATHABLE UPPERS**
Permit air to circulate freely through shoes.
- NON-CHAFING TOE**
Eliminates seams that cause friction and discomfort.
- TESTED COMPOUNDS**
First in the laboratory, then under actual wearing conditions.
- BALANCED CONSTRUCTION**
Upper and sole are correctly built to give "balanced" wear.
- NON-MARKING SOLES**
Special light coloured soles won't mark polished floors.

Fredericton — The New Brunswick lands department has announced that sale of all-type hunting licences to non-residents in 1947 amounted to 3,531, a decrease of 229 from 1946. The decrease was due partly to necessary curtailment of the hunting season because of forest fire danger last autumn.

London—You don't have to sit at a desk with a typewriter and a blue pencil to be an editor. Captain P. F. Stewart, a paraplegic, has launched the first edition of "The Cord," a new quarterly of the paraplegics' branch of the British Legion, from his bed.

400 McGill Athletics Awards Announced

C.I.A.U. MEDALS
BOXING (silver medals): G. M. Marshall, 133 lbs. championship; J.

J. Heney, 140 lbs. championship; M. J. Orr, 147 lbs. championship; F. A. Creaghan, 165 lbs. championship.

FENCING (silver medal): G. A. Pouliot, individual champion.
GYMNASTICS (bronze medal): J. S. Foster.

SWIMMING: G. Athans, bronze medal, 50 yds. freestyle; J. T. Quayle, silver medal, 200 yds. relay; S. G. Christie, silver medal, 20 yds. relay; S. G. Christie, silver medal, 50 yds. freestyle; G. E. Cooper, silver medal, 200 yds. relay; G. P. J. Marshall, silver medal, 200 yds. relay; W. Errington, bronze medal, 200 yds. breast stroke; J. R. MacLean, bronze medal, 100 yds. back stroke; T. E. Young, bronze medal, 100 yds. freestyle.

TENNIS (silver medal): B. C. LeRoy, singles champion.
TRACK: T. Fainstat, gold-filled medal, shot put (broke record); L. J. Fournier, gold-filled medal, discus (broke record); L. J. Fournier, silver medal, broad jump; J. D. Flewelling, bronze medal, 120 hurdles; H. Munroe, silver medal, 100 yds.; H. Munroe, bronze medal, 220 yds.; P. E. Robinson, bronze medal, 440 yds.

WRESTLING (silver medals): D. Hillman, 125 lbs. championship; F. A. Dawson, 155 lbs. championship; W. Koval, heavyweight championship.

The Best For Less

I WANT TO KNOW... what's the best way to take out insurance

UNLESS YOU YOURSELF have gained a thorough understanding in this highly specialized field then the best way to take out insurance is to consult someone with experience—your Mutual Life of Canada representative.

Take him into your confidence. To begin building for you a life insurance program that will assure you maximum security and happiness, he must know your circumstances and understand your problems. Your present and prospective responsibilities and desires as well as your income must be considered before he can advise on the policy or policy-combinations best fitted to them. He will also wish to be kept informed of any changing circumstances which might alter your insurance needs.

Your Mutual Life agent's help and advice are available at all times, without obligation. Consult him now. Ask why Mutual Life of Canada insurance is low-cost life insurance.

Do You Know That...

Since the end of the war,

NEW VEHICLES

We have purchased 230 new gasoline buses and trolley coaches. If these vehicles were placed end to end, they would cover a distance of 1½ miles.

We have also purchased 17 general utility trucks for construction work during the summer months and snow removal during the winter.

TWO-WAY RADIO COMMUNICATION

A radio transmitter has been built and a two-way radio system has been installed in 17 emergency vehicles. This equipment greatly facilitates the control of service, especially in cases of interruptions resulting from fires, accidents, parades, mechanical failures, etc.

NEW BUILDINGS

Another garage for sheltering and servicing 120 buses has been completed. A new repair shop for the overhaul and general maintenance of a fleet of 600 buses is now being erected.

TRACKS

Construction and improvements have been carried out on 20½ miles of tracks.

N.B.—During 1947, our vehicles travelled 18,737,783 more miles than in 1939 and 3,377,206 more than in 1945.

Public Enemy No. 1

Cancer Will Not Be Cured By Fear—Dr. J. C. Meakins

Courage and knowledge were defined as our best weapons in the war against cancer by Dr. Jonathan C. Meakins, C.B.E., co-president of the Quebec Branch of the Canadian Cancer Society and former dean of the faculty of Medicine, in a conference which he gave last month as the drive for cancer research funds got under way.
"THIEF IN THE NIGHT"
Describing cancer as a "thief in the night," Dr. Meakins pointed out that "cancer cannot be conquered by fear and ignorance, which are its most helpful aids. On the contrary, our weapons must be hope, courage and knowledge," he said.
Outlining the task of the Canadian Cancer Society, the speaker admitted that it would be difficult, but expressed the hope that with adequate funds a great deal of progress could be made to conquer one of the greatest scourges now afflicting mankind. "It is true that we do not know the cause of all cancers," he said, "but we do know the cause of some forms and can produce cancer by several means. Likewise we have not what is known as a specific cure for cancer but we do know that the earlier cancer is recognized and treated by such means as we have at our disposal, the greater are the chances of a permanent cure."

STUDENT EMPLOYMENT
In order to clarify any misunderstanding in regard to employment for graduating students and summer employment for undergraduates, the McGill Placement Service wish to draw the attention of all students to the following memorandum.
All students graduating in Commerce and Engineering are reminded that it is in their own interests to return the report on Graduation form to the McGill Placement Service office. Additional forms are available.
In addition, graduating students in all faculties who have registered with the McGill Placement Service are asked to report whether or not they have yet secured employment. This applies particularly to students not living in Montreal.
All students who registered for summer employment should report whether or not they have obtained employment.

THIS won't tell you the final cost of your shoes!
You simply can't tell the value of a pair of shoes from the price on the label. You have to know how long they'll stand up—for a little extra money can buy a lot of extra wear.
The famous fine shoes that bear Dack's name will so far outwear inferior shoes that they cost less money in the end. Yes, you'll wear Dack shoes much longer, and with real pride, thanks to sound leather and honest workmanship.

Never—P. 3
his fire-squad. This is the climax of a series of misfortunes which began to fall upon poor Austria when that little country was invaded by Hitler in 1938.
New telegram from the "Inter-European News Agency" to the newspapers of Huustiplu, rectifying the information previously given:
"Only a hay barn was partially burned yesterday in Herr Schnapz's estates. The fire was provoked by a cigaret, and it was quickly brought under control when Mrs. Schnapz poured upon it a pail of water which was nearby. The damage is negligible."
McGill Position—P. 1
funds to scholarships.
"The needs of McGill," he said, "even though millions are millions, are not large in proportion to the wealth of this community. They are small indeed compared to the loss that we should suffer if McGill were unable to maintain its position as a great university of world-wide reputation."
She: "I've broken my glasses—I will have to be examined all over again!"
Optician: "No, only your eyes."

Fund Campaign—P. 1
educational facilities for veterans. These deficits, running into net amounts of some \$400,000 and some \$250,000 in respect to the past and the current year make it impossible to consider using present endowment funds for dealing with the emergency.
"Additional funds are needed not only to meet these deficits but to permit the maintenance at a high level of the educational services which McGill offers to Montreal and to Canada. Increased revenues are necessary to permit the appointment of new professors and the increase of some academic salaries, while capital funds are equally essential to enable the university to construct the additional buildings that it needs."
A woman's promise to be on time carries a lot of weight.

Departmental Staff Changes Are Numerous

Dr. William Graff, chairman of the German Department, has been promoted from the rank of associate professor to that of full professor, it was announced last week. Dr. Graff, born in Holland, obtained his Ph.D. at l'Universite de Louvain, Belgium.

Another promotion announced after the same meeting of the Board of Governors and on their behalf by Dr. James, was that of Dr. William Rowles of Macdonald College, also from an associate to a full professorship. Dr. Rowles is from the Department of agricultural physics at the Ste. Anne's institution.

Among other staff changes made public was the resignation of Dr. W. H. Kelly, associate professor of anthropology, who is returning to the United States where he has accepted an appointment after one year as head professor of anthropology.

Dr. C. C. Bailey, associate professor of history and a specialist in mediaeval history, has been granted leave of absence for one year in order to benefit from the Guggenheim fellowship which was awarded to him last month.

Dr. Doris S. Nunes, lecturer in bacteriology, has resigned in order to accept a National Research fellowship. Dr. Florence A. Farmer has been appointed to the post of assistant professor in the Department of nutrition at Macdonald College. Two new lecturers are announced in the department of bacteriology and immunity. They are Dr. Andre Leduc and Dr. Anne M. Masson.

Dr. B. Usher has been made a demonstrator in the department of health and social medicine. He will specialize in social disease control. A new acquisition for the Department of romance languages is Dr. Tadeusz Romer, and M. C. Baker has been made a lecturer in surveying, in the Departments of applied mechanics and civil engineering.

Cancer Research Grants Received

Eight members of the staff of the university have received grants totalling \$14,618.78 from the National Cancer Institute of Canada to aid in their research work on cancer, it was announced recently.

The grants were included in a long list of recent grants, gifts and bequests made to the university. The doctors named are: Dr. Roderick C. Ross, research fellowship, \$2,400; Dr. Samuel Albert (research fellowship), \$2,750; Dr. M. M. Hoffman, (for research project), \$2,380; Dr. G. Lyman Duff (for research project), \$800; Dr. C. P. Leblond (instalment on grant of \$8,000), \$3,910.78; Dr. H. O. Warwick, (instalment on grant of \$500), \$123; Dr. W. V. Cone and Dr. John Korshman (instalment of grant of \$4,500 for research project), \$2,500.

Other grants and gifts are: Casgrain and Charbonneau Ltd., annual donation to the Faculty of Medicine for a prize for original work leading to improvement in the prevention or treatment of disease, \$500; Dr. Harold Pittis, donation to establish The Ruth C. Pittis Dictionary Endowment, for the Medical Library, \$500.

Dr. W. F. Walford, gift of two medical dictionaries to be awarded as the Dr. I. K. Lowry Prizes in Oral Histology and Embryology, to the two students in Dentistry who attain the highest standing in this course.

Colonel G. L. P. Grant - Surtis, second annual donation for bursaries in the Geography Summer School, \$400; George A. Campbell, donation to School of Social Work, \$10; Dr. and Mrs. Charles Colby, donation to School of Social Work, \$25; Dominion Tar & Chemical Co. Ltd., donation to School of Social Work, \$25; Asbestos Corporation, Ltd., donation to School of Social Work, \$50; Miss Kathleen Fisher, donation to School of Social Work, \$25; Estate of Sir Charles Lindsay, contribution to School of Social Work, \$152; Dr. G. E. Tremble, contribution to School of Social Work, \$5; Montreal Chapter, No. 257, B'nai Brith Women, second annual donation to the B'nai Brith Bursaries Fund, \$100.

National Breweries, Ltd., donation to School of Household Science for interior decoration course, \$100; Canada Maltng Co., Ltd., sixth annual contribution to department of Agronomy for research in barley breeding, \$300; G. H. Wood & Co., Limited, donation for scholarships in Medicine, \$500; Macdonald College Teachers Alumni, donation to the endowment of the Macdonald College Teachers Alumni Scholarships, \$647.33; Local Council of Women of Montreal, annual donation to maintain a prize in the Homemakers Course of the School of Household Science, \$10; The Abner Kingman Family, presented through Mr. Walter Molson a gift to the Redpath Library of a copy of Chandos portrait of William Shakespeare.

EATON'S
